

Charging

The PC CADDIE terminal enables your customers to top up their prepaid cards or badges outside regular opening hours. Please note the requirements for this function:

- Existing [Online card system](#) from PC CADDIE
- Possibility to read or write to the terminal for charging
- [Payment option](#) by card (debit and credit cards such as Maestro, Girocard, VISA, Mastercard, etc.)

- Available printing option for receipts (usually supplied together with the terminal)

Top-ups made at the terminal are posted directly to the respective customer account and offset against the current day's balance.

To install the required modules, please contact PC CADDIE Support.
