

enter new, change, delete

There is a central input function in PC CADDIE for entering, viewing or editing customers. PC CADDIE does not differentiate between members, guests or companies and clubs - all are customers, each of whom can have an address, telephone number, etc. Guests and members can then be easily separated by personal characteristics. The advantage lies in the standardised input and administration for all persons.

In the menu, select **Persons/...enter new, delete change** or click on the first button in the coloured icon bar:

Select customers

This selection window appears, with which you can easily select customers in PC CADDIE.

Enter search abbreviation

In this search window you can search for anything your heart desires. To select people very quickly, search for: First names, surnames, membership numbers, telephone numbers, invoice numbers, e-

mail addresses or enter the search abbreviation.

The search abbreviation always consists of two letters of the surname and two letters of the first name. If you do not know the search abbreviation, simply enter the first three or five letters of the surname. A comma after the three letters you enter means that you will receive all the names in the database that begin with these three letters.

If you confirm with OK, you will jump to the corresponding position in the list. Scroll down or up in the list using the arrow buttons.

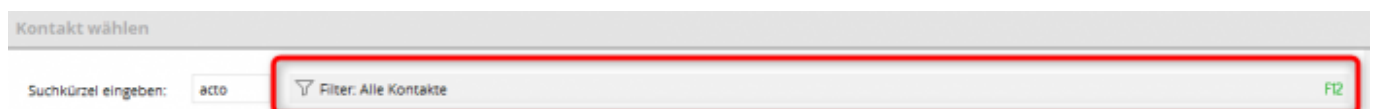

Opening two person windows at the same time

You can open and edit two or more person windows simultaneously in PCCADDIE.

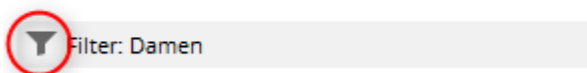

1. Open the first person data record as usual
2. Click on „Contacts“ at the top left
3. hold down the „shift“ (or ctrl) key on the keyboard
4. click on „...enter new, change, delete“.
5. Release the key
6. select/open second person

Important: It does NOT work if you go to the selection list at the top right of the person mask!

Filter

Click on the Filter button and select a filter to display only a specific group of customers. If a filter is set, the funnel symbol on the left edge of the button turns red.

Scroll through the people filter

If you want to browse in the person mask by member number and not by alphabet, please set the following options.

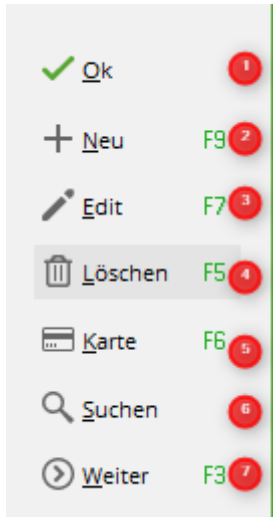

Open filter

Tick the box. You can then scroll backwards with F3 or forwards with F4. You could of course also select the „All members“ person filter here if you want to scroll through the membership numbers of your members.

You can select further sorting options by clicking on the arrow.

The [filter function](#) in the person mask is described here.

Further functions

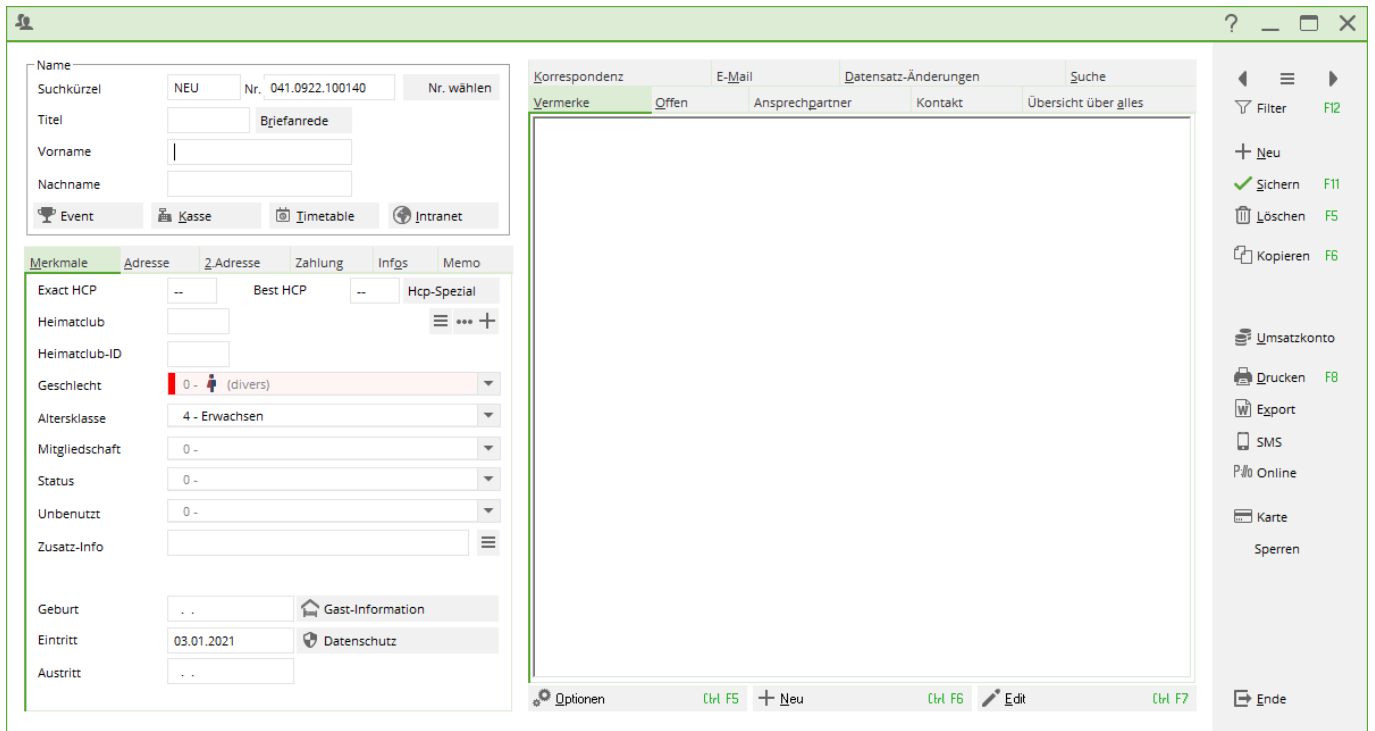

1. Confirm the entry, the selected data record is opened.
2. Open empty person mask to enter a new customer.
3. Customers selected in the list open for further editing. Then click on „Change“ to activate the fields highlighted in grey in locked mode and edit them.
4. Delete selected customer (only works as long as nothing has been posted to the account)
5. Only works with [PC CADDIE.id card system](#). Opens the person's personal data when the card is inserted.
6. Searches for a customer by first name and surname
7. Jumps to the next matching data record when a search (4) is entered

The window is closed with Cancel

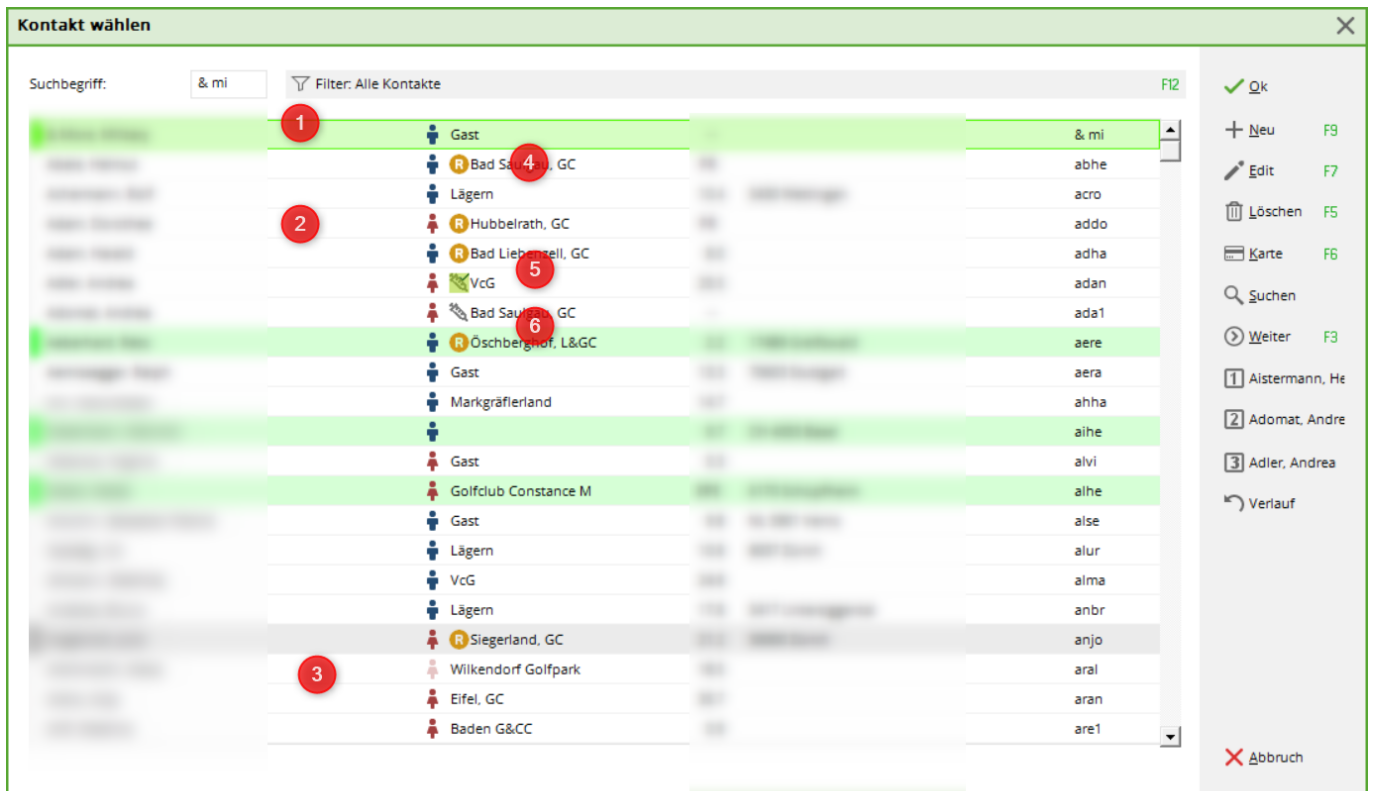

Personal data input window for single person

To create a new person, please click **New** (F9). It is best to start with a family father or the head of the family. The following input window will then appear:

View and icons of the contact list

All contacts

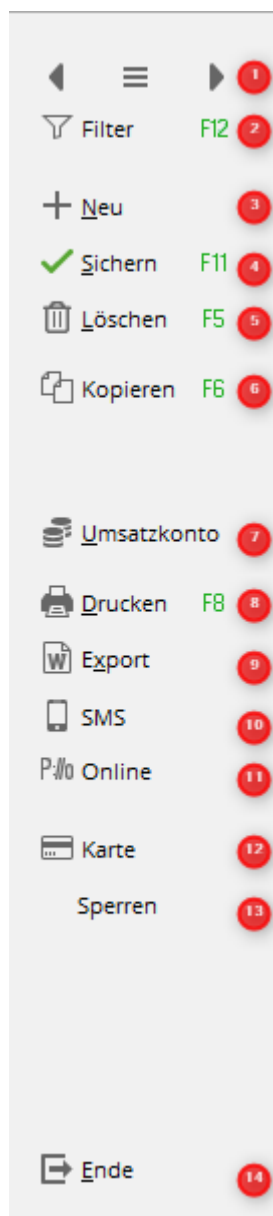

- 1. Male
- 2. Female

3. Female, child
4. Regionality
5. Covid status checked
6. Covid status without check

General functions of the buttons

Here is a brief explanation of the buttons located on the right-hand side of the input window. These buttons are similar and basically have the same function in most dialogues:

1. The centre button is used to select people. You can also access this function by pressing (F9).
You can scroll forwards with „▶“ or (F3). Scroll back with „◀“ or (F4). The next person listed in the alphabet is always displayed.
2. Use Filter (F12) to select a specific group of people (here too, the funnel turns red when the filter is activated). If such a group is selected, scrolling with the arrows is restricted to this group. For example, you can only scroll through the members.
3. Open empty person mask to enter a new customer.

4. Edit an already open customer. By clicking, the fields highlighted in grey in locked mode become active and can be edited. The button changes to Save and saves the changes made. PC CADDIE saves automatically and you do not need to click on Save and Change as long as you are editing people.
5. Delete selected customer (only works as long as nothing has been posted to the account)
6. Copy for [Quick creation of family members](#) becomes active as soon as Edit/Change is clicked. Also with key (F6)
7. Jump to the person's sales account, also with the Alt + U key.
8. Printing master data, green fee cards, etc., also works with the (F8) key.
9. Export word processing data (e.g. for serial letters written with Word for Windows or OpenOffice). Further information on this can be found under [Create a single letter using a template](#)
10. [PC CADDIE://online WebSMS](#) to the person concerned [sms_an_person](#).
11. Register this person at [Register this person online at](#), synchronise the data or send the password to the member again.
12. This button is only visible to those customers who work with the [PC CADDIE.id map system](#). It displays the map information and enables it to be [editing](#).
13. This button can block a card for a specific person [block](#). For offline systems, a lock card, an unlock card and an admin card can be created here. Here you can find more information about the [PC CADDIE.id card system](#).
14. End finishes the entries and saves them automatically. You can also press the Escape key, in which case you will be asked whether you really want to save. By selecting No here, unwanted entries can be cancelled.

Link to the modules from the person input window

1. The button **Tournament** button shows you which tournaments the person is already registered for: you can use Select tournaments (F4) to register the person directly for a tournament. [Entering players, dividing up the starting list](#) You can also determine the data range taken into account and remove the selected person from tournaments. You can find further information under [Competitions](#)
2. With **Checkout** takes you directly to the [cashier area](#), where you can make a booking for the person concerned.
3. By clicking the button **Timetable** button, PC CADDIE searches for all start times that have been booked in the name of this person. These can also be [printed out](#).
4. With the button **Intranet** button, PC CADDIE compares the entered data with that of the DGV (or Swiss Golf or ÖGV) and updates all details including handicap:

Search abbreviation

You should always set the search abbreviation to **New** PC CADDIE will then determine a suitable abbreviation itself. PC CADDIE composes the search abbreviation from two letters of the surname and two letters of the first name.

For example: Anita Sonnenschein = soan. This search code is always uniquely determined by PC CADDIE; no person can have the same code as another person. Of course, it can happen that two different people should theoretically have the same licence plate number, in which case the last letter is replaced by a number:

Anna Sonderbar becomes „soa1“ and Anton Sonett becomes „soa2“.

If you then want to select „Anna Sonderbar“ later when dialling and simply enter „soan“, PC CADDIE displays all the people in question in a list. You can then easily select the person you want.

Exception in Germany: Benedikt Schmedding = ßmbe („Sch“ becomes „ß“; in Switzerland and Austria, the corresponding abbreviation is smbe).

Number

The number (no.) is also assigned automatically by PC CADDIE. Only the last six digits form the membership number within your club. The first three digits stand for the country (049 = Germany, 041 = Switzerland, 043 = Austria etc.), the next four digits are formed by the DGV, ÖGV or Swiss Golf club number. This is followed by the 6-digit number. For members, this is the membership number.

Germany only: Changes to the membership number AFTER a card has been ordered will result in these members automatically losing their regionality status on the intranet until a new card has been ordered!

If you would like to automatically assign a separate number range for members, please contact the [Pcc Support](#).

Title, name, form of address and specific gender

Only academic titles such as „Dr“, Prof. etc. belong in the Title field.

„Mr“ or „Mrs“ is defined by the gender and therefore does not need to be entered anywhere.

Name	
Suchkürzel	mepe Nr. 041.0922.100019 Nr. wählen
Titel	Prof. Briefanrede
Vorname	Petra
Nachname	Member
Event	Kasse
Timetable	Intranet

Information on how to set how academic titles are optionally not printed in tournament lists can be found [here](#).

Only in exceptional cases is it necessary to use the button **Letter salutation** button (for example „Baron“ and „Dear Baron“). You can simply enter your first name and surname in the corresponding fields (first name, surname).

Name	
Suchkürzel	mepe Nr. 041.0922.100019 Nr. wählen
Titel	Prof. Briefanrede
Vorname	Petra
Nachname	Member

Create member

Person mask

Edit the person mask as described on this page, see above and below.

Create your member with membership characteristics and transfer it to the intranet. Only then will the association know that this person is now a member of your club and can manage the handicap.

Entry date in the future

For example, you can transfer new members to the association's intranet at the turn of the year a maximum of 45 days before the entry date is reached; nothing will be transferred to the association any earlier.

Furthermore, PC CADDIE has no influence on how the associations process future entries, in particular whether you can already enter a course authorisation, etc.

HCPI new member

A lot has changed with the introduction of the WHS (World Handicap System). The handicap is

managed completely by the association. Further information on the handicap history can be found [⇒here](#)

Please remember, if you are given an HCP when a new member joins, that you clarify where this HCP comes from, possibly request an HCP master sheet from the new member, or details of when and where the HCP is from.

In PC CADDIE with the WHS, you can no longer enter the HCP in PC CADDIE, which could be sent to the association (DGV), as this is not provided for by the association (Germany).

Determination of the HCPI

A simple definition of the HCPI for a new member is not possible in PC CADDIE or is not transferred to the association (DGV) and therefore has no effect on the handicap (since according to the interface to the association only results can be transferred: Private rounds (RPR), competition results and results from abroad).

If a determination is necessary, please enter it directly in the DGV Service Portal if possible, or write an e-mail to regularien@dgv.golf.de if you have any further questions.

Determinations are necessary if no current HCPI is provided with the query to the association, but the golfer has a handicap, e.g. from another country that is not connected to the intranet, or he was passively registered in the previous club on the cut-off date 22/11/20 (DGV), for example.

New member with PR (course licence) or HCPI 54

Make sure that you have loaded the latest PC CADDIE version via **End - Update PC CADDIE!**

Always create your member first and transfer it to the INTRANET.

You can then enter the member's handicap with date directly in the DGV portal via „Entry of special rounds and external results in the service portal“, which directly results in HCPI 54.

If you offer competitions for the course licence, you can process the competition as usual with your own course, as you will then have a current score for it!

HCPI for new members automatically

If the HCPI is not delivered automatically as described below, even though the new member had a home club in their own country on the WHS introduction date and the HCP was active, please also write to regularien@dgv.golf.de

A new HCPI is automatically supplied by the association if the golfer **at the time of conversion to the WHS** (in Germany the cut-off date was 22.11.20) a **home club from the same country** (i.e. a German home club in Germany) and the handicap **the handicap was active** (for passive members, the DGV did not have a master sheet history for conversion, this is due to earlier requirements from the DGV specifications for the CVS).

In future, if a membership exists in 2021 and the golfer changes club in 2022, the cut-off date 22.11.20 is no longer applicable, as it is sufficient that the handicap was already kept by the association (in the same country) in the previous year (e.g. 2021).

- You create the member, save it and **transfer it to the DGV INTRANET first** ! The intranet must first „know“ that the player is now a member with you. The player ID is automatically supplied by the association.
- In the 2nd step you can request the handicap from the association, if it is provided, everything is ok.

The screenshot shows a software interface for managing a member's profile. The main window is titled 'Kunz, Stefanie' and contains several input fields and buttons. A red circle with the number '1' highlights the 'Intranet' button in the bottom navigation bar. An 'Intranet-Funktion' dialog box is open, displaying a list of actions. A red circle with the number '2' highlights the 'Beim Verband prüfen' option in the dialog.

Handicap index (Exact HCP)

Changes as of 23 November 2020 (Germany)

For members, the handicap index (World Handicap System) is filled by checking with the association. The handicaps are managed and maintained by the association.

The HCPI (Handicap Index for **guests** whose home club is also connected to the intranet (Germany, Austria, Switzerland) are queried via an intranet check. Further information on the intranet can be found here: [Connecting to the intranet](#)

For other guests, the handicap index is simply entered in the field.

An HCP index for guests can only be entered if a home club is entered for the person. If the home club is not available for selection, it must be created:

Germany, Switzerland and Austria: [Import club addresses via intranet](#)

For home club entries for all other countries, create a club manually: [Create a club manually](#)

Freeze HCP (Switzerland only)

Available from PC CADDIE versions 6.6.2022

According to WHS, you can freeze the Hcp index (until a certain specified date).
 If you select a „frozen status“ and leave the date blank, the date is automatically set to „in one year“.
 In principle, the „frozen“ status should freeze the Hcp completely - „frozen up“ should prevent a further increase, „frozen down“ should prevent the Hcp from falling.
 For further information on the application and consequences, please contact Swiss Golf, PC CADDIE only transfers the status to Swiss Golf and has no influence on the calculation!

HCPI for "Pro" (Professional)

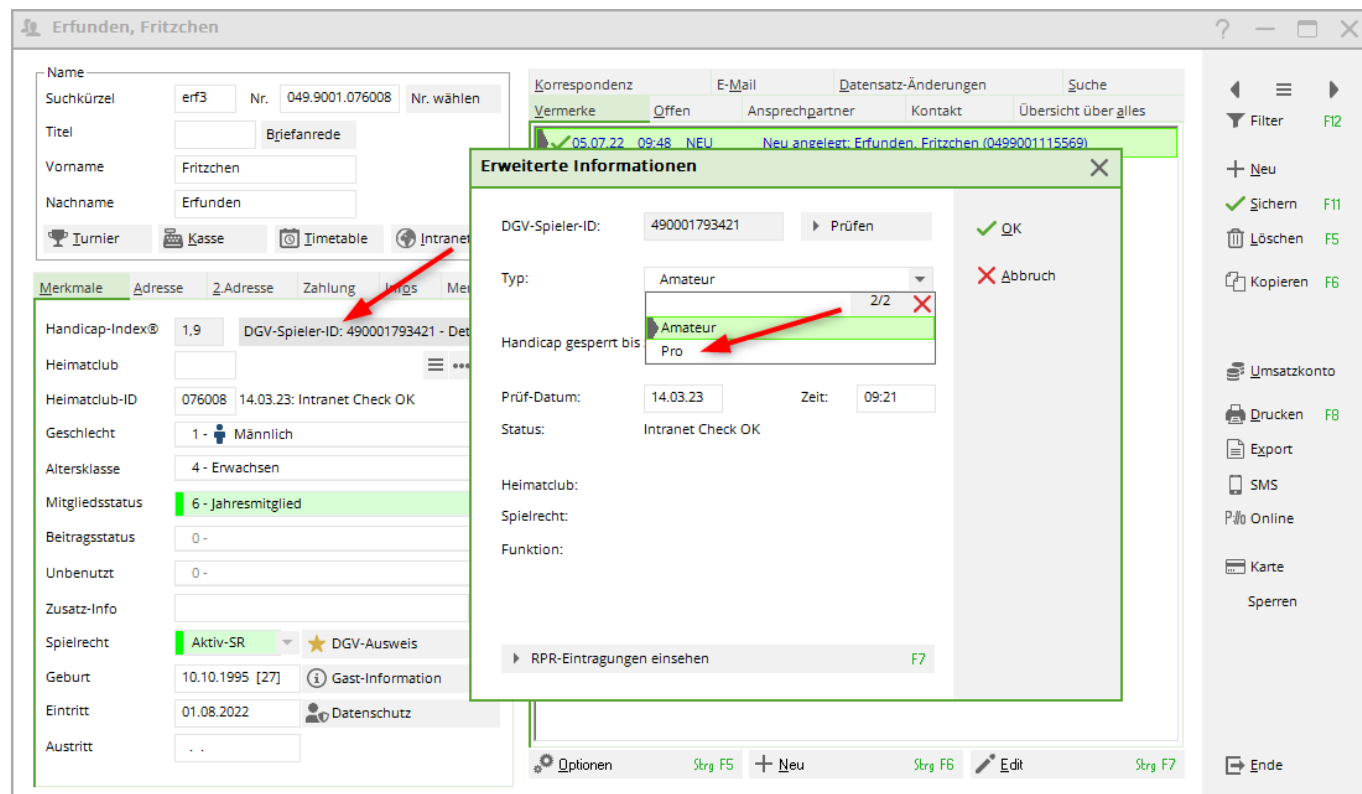

Pro with or without HCPI

With the „World Handicap System“ PROs can also have an **HCPI Handicap Index** but there are also PROs without HCPI (choice of PROs).
 A pro who is a member of a golf club can only register with the DGV at regulieren@dgv.golf.de if he does not want an HCP guide. The DGV will then adjust this.
 A pro who is not a member of a golf club automatically does not have an HCP.

You can set „Pro“ in PC CADDIE directly in the person:

The default setting for all persons is „Amateur“, a Pro is changed to Pro. The Pro status is then transferred to the DGV as information if the Pro is a member. The DGV needs this information in order to deactivate the Pro's HCPI management on request. In the event of a future HCPI enquiry for a Pro without HCPI management, the DGV returns a LOCK MESSAGE of the HCPI.

According to the DGV, Pro is only a profession, therefore Pro will no longer appear in the HCPI field and in future on lists (also in tournaments) only after the name (according to DGV - status August 2023). For a Pro with HCPI leadership, the HCPI will of course also appear on the tournament lists.

Recommendation: Under „Function in club“, enter that the player is a pro! The pro will then also have Pro on his DGV card and you can also see how many pros are members of your club.

Details (for members)

From 23 November 2020: World Handicap System (WHS):

By clicking on the Details button, you can access the result history of the selected person. In Germany, only RPR rounds are saved here.

In Switzerland, the complete scoring record and handicap history is automatically loaded here when opening.

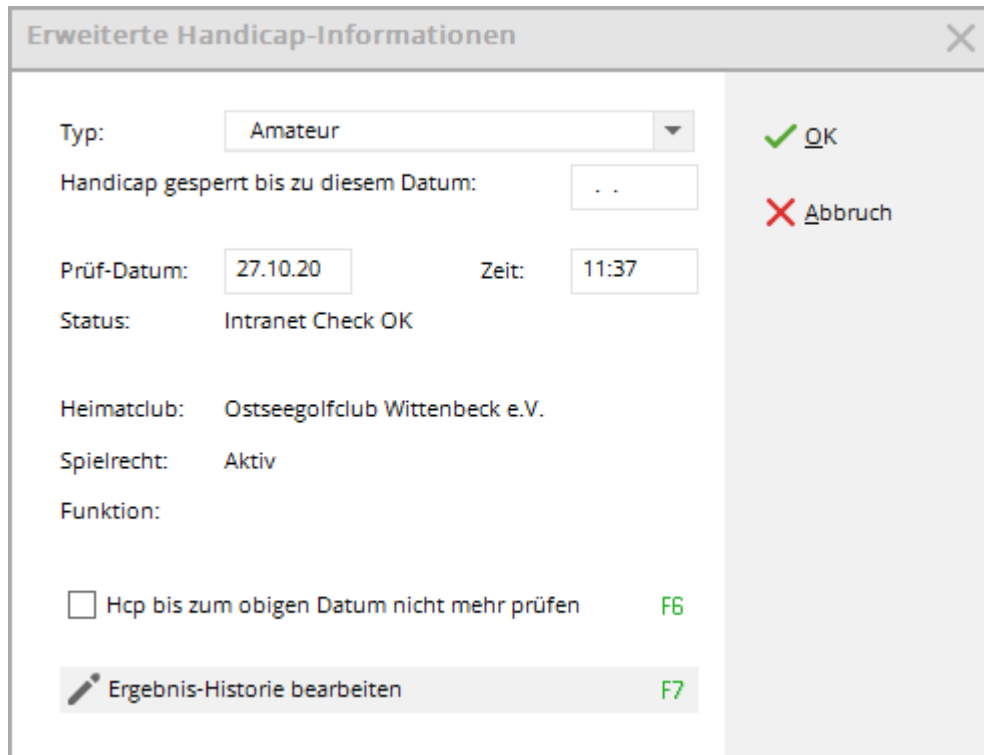

In Austria, you can see the list of tournament results and entries from HCP queries at the association (. The HCP index is not calculated (this is carried out by the ÖGV).

Details (for guests)

The button behind the handicap index is also for guests and second members **Details**. By clicking on this button, you can select the option **Do not check Hcp until the above date** to switch off the

check.

If you have a tournament week with daily tournaments, for example, it may be the case that you cannot check the HCPI of foreign players on the intranet (e.g. players with a Spanish home club). If necessary, you can enter that the handicap will no longer be checked until the end of the week. After this time, the activation is automatically cancelled. This function is only required in exceptional cases.

A question mark (unchecked HCPI) will then no longer appear on the start list. This option can be operated very quickly by first pressing (F7) and then (F6) followed by Enter in the Hcp field. You do not need to change the date. If it has passed, PC CADDIE will automatically change it to the next day if this option is activated.

Home club

You select the home club by either entering the club number you already know in the Home club field or simply start typing. It is also sufficient to enter just a few letters - you will immediately receive a suitable selection. For some abbreviations, PC CADDIE will ask you which club is meant exactly.

If necessary, simply click on the button to select the club from a list. You can use the button to edit the selected club directly. You can correct the name or look up the address.

For **members** who have entered another club as their home club (second member, only the home club is allowed to play in the league), enter the home club in this field! If your club is the member's home club, this field can remain „empty“.

You can create a new club either by importing it. To do this, please open via **Settings / Connect to intranet** to open the following window and click on the button **Query club information**:

Please confirm with **OK** and start the intranet synchronisation. PC CADDIE will now load all new club information for you. You can find more information about this here: [Query club information](#)

Another way to enter new clubs is via **Settings/Clubs+Places**. Via the button **New** button to create a new club. Further information on creating clubs and courts can be found here: [Clubs and courses](#)

Player club on lists

For players who are members of several clubs, there is an option to display the desired club on lists, e.g. for team tournaments (interclub). club is displayed. Even if the player has a different club as their home club.

With the introduction of the WHS (World Handicap System), the guest player query will only receive an answer if the player's home club is entered in the person (queries for second clubs are not possible).

In the PC CADDIE person mask, the home club should also be entered as usual for **home club** as usual. Click on the **+ sign** to enter another club manually (The intranet query „check“ for a second club is not possible with WHS. The association does not provide any data for a second club. However, you do not need the membership number of the second club for the print function)

Heimatclub-ID	083672				

ID in the home club

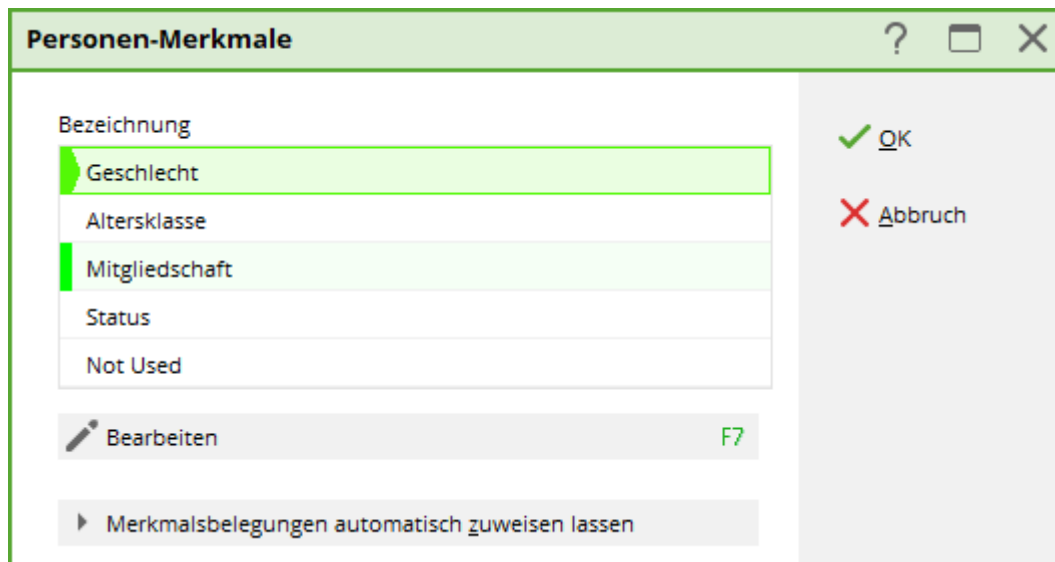

The ID is loaded into the personal mask via the intranet check and automatically transferred. This identification number, together with the club number, can be used to identify the player in order to check the handicap on the intranet. The association ID is essential for handicap management by the association.

Personal characteristics

You can use the following identifiers to categorise the person precisely. By clicking on the button, you can scroll down a list with all selection points. The identifiers that can be selected here can be categorised with the function **Settings/Programme settings/Characteristics of contacts** function to customise them to your specific requirements. Please read the following [Description](#).

Gender

Data records that are labelled with male/female are considered persons for PC CADDIE. If you want to include a hotel, a company or a club in the address file, add the corresponding characteristic to this data record. A person (owner, manager, etc.) can then be linked to this company via the family summary.

By clicking on the button with the arrow pointing downwards, you can scroll down the list with all selection points and then select the desired „Gender“.

You can also easily specify the selection by entering the number in front of the name on the keyboard. However, this is only possible if the Gender button is activated. For example, click button 2 to select „female“.

If you have selected options 3-8 (company, club, supplier), the person mask will change automatically. These selection options do not refer to individual persons. We will go into this topic in more detail in a later chapter.

Age group

The age group is linked to the date of birth and adjusts automatically as soon as the age limit defined in the settings is exceeded.

The age group should not be adjusted as it is also necessary for the tournament organisation on the intranet. If, for example, you charge for a special article in your club, an article only for members up to the age of 16, you can alternatively adjust the age group in the contribution status.

PC CADDIE usually provides you with the following options for age groups:

- 1 - Child up to 12 years
- 2 - Youth up to 18 years
- 3 - Junior up to 21 years
- 4 - Adult (for ladies up to 49 years, for men up to 34 years)
- 5 - Young senior (only for men aged 35 to 54)
- 6 - Seniors (women aged 50 and over, men aged 55 and over)

Membership status

Select the appropriate membership here.

The selection options for the membership status can also be defined under [Settings/Programme settings/Personal characteristics](#). As each club has a different status, it may be necessary to change the predefined options.

Membership status

The membership fee status is very important for invoicing membership fees. It can be used, for example, to define different age groups and price categories for juniors.

Information on customising the personal characteristics of gender, age group, membership and status can be found under [Settings/Programme settings/Personal characteristics](#)

Additional information

You can largely configure the fields in this window yourself: Further information on additional information can be found here: [Additional information](#)

Right to play

Further information on the [playing rights](#) can be found here:

✗ Abbruch

If desired, you can enter details of the admission fee here. The item will then be posted directly to your account (pay attention to the account area!).

Tick the box for *Book badge order* and *Obtain player ID automatically* are automatically ticked if the right to play with a badge is stored. Leave them as they are and confirm with OK.

For existing members

Click on the DGV card or Swiss Golf card button to open this window:

1. With this tick you determine whether a member receives a card or not. The tick is set by default; you should only remove it if, for example, the member is a second member and already has a badge or explicitly does not want one.
2. If you tick this box, the member will be issued with a new membership card the next time they order one (new members during the year or members who have lost their membership card). If this box is ticked, this is indicated by an asterisk on the button (as shown in the image above). The option is automatically deactivated after the card order form has been sent to the DGV / Swiss Golf.
3. Here you can see when the last card was ordered for this member.
4. If you remove the golf membership feature for a member (without editing the resignation date in the person), the resignation is automatically filled in at the association. You will first receive a message that this is happening.

Birth

Here you have the option of entering the date of birth. When you enter a date of birth, the age category is automatically adjusted. This field is mandatory for members.

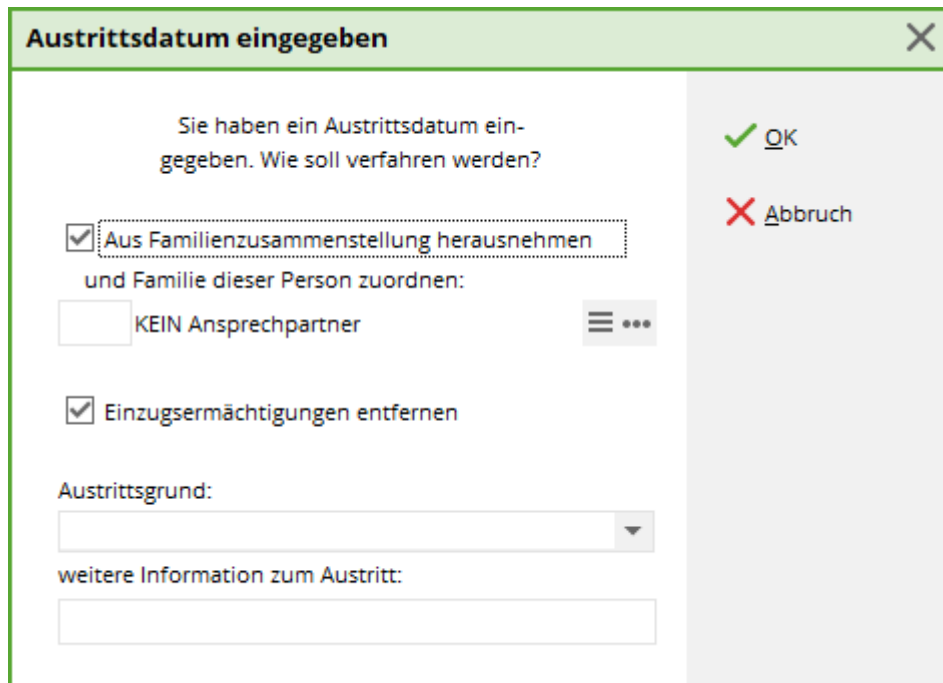

The date of birth of guests is automatically loaded into the system via the intranet check.

Entry

The date on which you entered the person in PC CADDIE normally appears under Entry. You can of course also change the date manually by clicking in the field with the mouse and entering the desired date (format: dd.mm.yy or ddmmyy or just dd if it concerns the current month).

Leaving date club and association

In the Resignation field, you can enter the resignation date in the same way as the entry date for members who wish to leave the club. Do not remove the membership and contribution statuses in the case of a resignation, as these may still be needed for filtering purposes. After entering the date and confirming with **Save** (F11), the following dialogue opens:

Austrittsdatum eingeben ✕

Sie haben ein Austrittsdatum eingegeben. Wie soll verfahren werden?

Aus Familienzusammenstellung herausnehmen
und Familie dieser Person zuordnen:
 ⋮

Einzugsermächtigungen entfernen

Austrittsgrund:

weitere Information zum Austritt:

✓ OK
✕ Abbruch

Remove from family composition Select this option if, for example, a married couple has separated or one partner leaves the club. This family no longer exists. If, for example, a child leaves, it remains in the family, so remove the tick. You can even assign a new contact person to the member who has left. To do this, select the person's abbreviation. If you leave the field empty, no contact person will be selected.

Remove direct debit authorisations ensures that you can no longer create SEPA direct debits with PC CADDIE for this person.

You can also select a reason for the cancellation.

Using the letter identifier, e.g. V for „Deceased“, you can filter by the reason for leaving in the person filter for lists.

Austrittsgrund:

17/17 ✖

- V - Verstorben
- W - Wegzug
- C - anderer Club
- G - Golf beendet
- O - Golf ohne Club
- I - zu freien Golfern
- F - Fernmitgliedschaft
- A - Ausland
- Z - Zeitmangel
- P - Preis/Leistung
- K - Gesundheitliche Gründe
- B - Befristet
- U - Unzufrieden mit Club

Activate the desired options and exit the dialogue with **OK** or the Enter button.

If a member is deceased and you have also selected the reason „Deceased“, the person is sorted to the end of your list of persons (after Z) and is marked with a dash above the gender symbol.

Vista, Gian	Ausgetreten	--	vigi
-------------	-------------	----	------

If you have selected „Deceased“ by mistake, you can change the reason for leaving by double-clicking on „Deceased“.

Verbandsmitglied von: 23.10.2017 bis: 31.12.2020

OK Abbruch

This date field is transferred to the intranet for the departure. This field is also filled automatically if you enter the leaving date manually in the person mask as usual.

Intranet-Abgleich

Es wurde die Austritts-Information erneut gesendet!

OK

TIP: It is unnecessary to enter „duplicates“ here. You only have the option of differentiating between a withdrawal from the golf association (intranet) and a withdrawal from your local organisation. You could also use this, for example, if you manage limited partnership shares. A limited partner could be provided with a personal characteristic that says „limited partner only“ without reporting to the intranet.

Address

As soon as you click with the mouse on the Address option in the person mask or you press the **Page down** button, the lower half of the input mask switches to the next tab **Address** tab:

Merkmale	Adresse	2.Adresse	Zahlung	Infos	Memo
Ansprechpartner	<input type="text"/>				
Familienstatus	1 - Einzelperson			Familie	
Funktion im Club	<input type="text"/>				
Straße	<input type="text"/>				
PLZ	<input type="text"/>	Ort	<input type="text"/>		
Telefon	<input type="text"/>				
Mobil	<input type="text"/>				
Fax	<input type="text"/>				
E-Mail	<input type="text"/>				
WWW	<input type="text"/>				

For the fields Contact person and Family status we come to the [enter the other family members](#).

Street, postcode and city should be clear. Please note that PC CADDIE automatically saves the city and area code for each postcode and, if necessary, jumps directly to the telephone field after entering the postcode. You should therefore always separate the area code and telephone number with a slash „/“. International country codes are preceded by a hyphen („-“), for example: 0241/402869, +0041-441/7654321. If you want to save business telephone or fax numbers, you should do this under 2. address.

Under [Settings/Programme settings/General settings](#) you have the option of formatting all telephone numbers in a standardised scheme. in a standardised scheme.

Function in the Club

Merkmale	Adresse	2.Adresse	Zahlung	Infos	Memo
Ansprechpartner	<input type="text"/>				
Familienstatus	1 - Einzelperson			Familie	
Funktion im Club	<input type="text"/>				
Straße	<input type="text"/>				
PLZ	<input type="text"/>	Ort	<input type="text"/>		
Telefon	<input type="text"/>				
Mobil	<input type="text"/>				
Fax	<input type="text"/>				
E-Mail	<input type="text"/>				
WWW	<input type="text"/>				

Under Club function, you should enter the function that should appear on the DGV card. This field is used to order the card (e.g. President).

Country code in the postcode

When entering a postcode with country code, the query appears automatically:

Internationale Adresse prüfen ✕

Bitte prüfen Sie die Angabe:

	Kennung	Bezeichnung	Vorwahl
Land:	CH	Schweiz	41

PLZ:

Ort:

Land:

(individueller Text nur in Ausnahmen)

If you require special country designations, you can now enter these yourself.

✓ OK

✗ Abbruch

If you leave the field empty, the country will be printed according to the text in the combo box at the top.

You can also select „(Special)“ and enter everything yourself for countries that are not in the list.

Distance information

In order to display the distances (as the crow flies) between your club and the postal address of a member or guest, it is necessary to load the geodata in PC CADDIE via the Internet. A detailed description of how to load the address coordinates can be found here: [Load geodata](#)

Show distances

To display how far away a member lives from your club, please click on the icon  icon behind the location in the person mask:

Straße	Hameau de Voëns		
Postfach			
PLZ	CH 2072	Ort	Saint-Blaise 

The member's address, reference address and coordinates are then displayed in the following window. The field „**Distance**“ field shows you the distance in kilometres (as the crow flies).

Adress-Koordinaten
✕

Adress-Informationen:

Strasse:

	Kennung	Bezeichnung	Vorwahl
Land:	<input type="text" value="CH"/>	<input type="text" value="Schweiz"/>	<input type="text" value="41"/>

PLZ:

Ort:

Land: (Spezial)

Koordinaten: ↻ Refrest F2

Distanz: km von dieser Referenz-

Adresse:

Koordinaten:

Adresse auf einer Karte im Internet zeigen F7

 Sonnenaufgang / Sonnenuntergang F9

✓ OK

✕ Abbruch

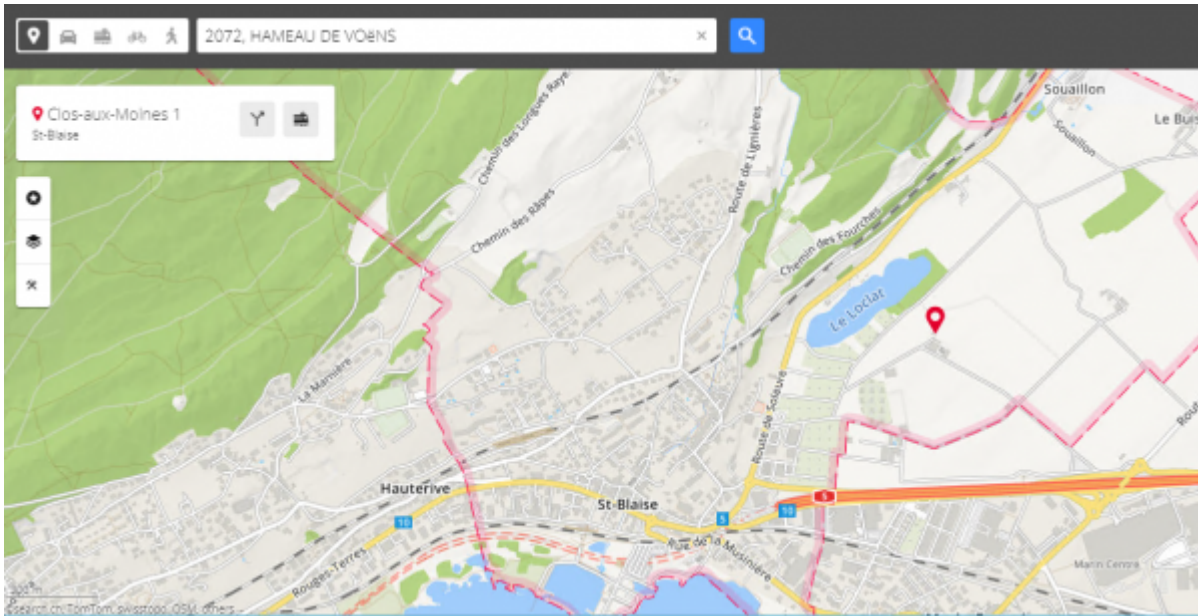

Show address on map

So that you can then recognise exactly where your destination address is, you can display it on a map.

Click on the „Address coordinates“ button at the bottom of the window:

Adresse auf einer Karte im Internet zeigen F7

and a map via OpenStreetMap will open in which you can recognise the target area:

Further information on printing lists of people with distance information can be found [here](#).

2nd address

Now let's take a look at the second address. Again, click on the image below or click on 2nd address:

Status	<u>1st Addr.</u>	<u>2nd Addr.</u>	payment	Infos	Memo
Firm / Hotel	<input type="text"/>				
Profession / Dep.	<input type="text"/>	<input type="checkbox"/> Print with			
Street	<input type="text"/>				
Postbox	<input type="text"/>				
Postcode	<input type="text"/>	Town	<input type="text"/>		
	<input type="checkbox"/> Mail address	<input type="checkbox"/> Invoice addr.			
Telephone	<input type="text"/>				
Mobile	<input type="text"/>				
Fax	<input type="text"/>				
e-mail	<input type="text"/>				
WWW	<input type="text"/>				

Most of the information is self-explanatory. The following is important: Tick „Also print“ if the content of the field **Occupation/Department** field should also be printed in an address. If Letter address is

not ticked, this field content will also be included in the first address. You can also use this field for notes such as „Personal“ etc.

Activate Letter address if the mail is to be sent to this 2nd address. Otherwise the mail will be sent to the first address by default. Tick Invoice address if the invoice is to be sent to this 2nd address.

Use the tab **2nd address** tab to enter the business address or holiday address of a member.

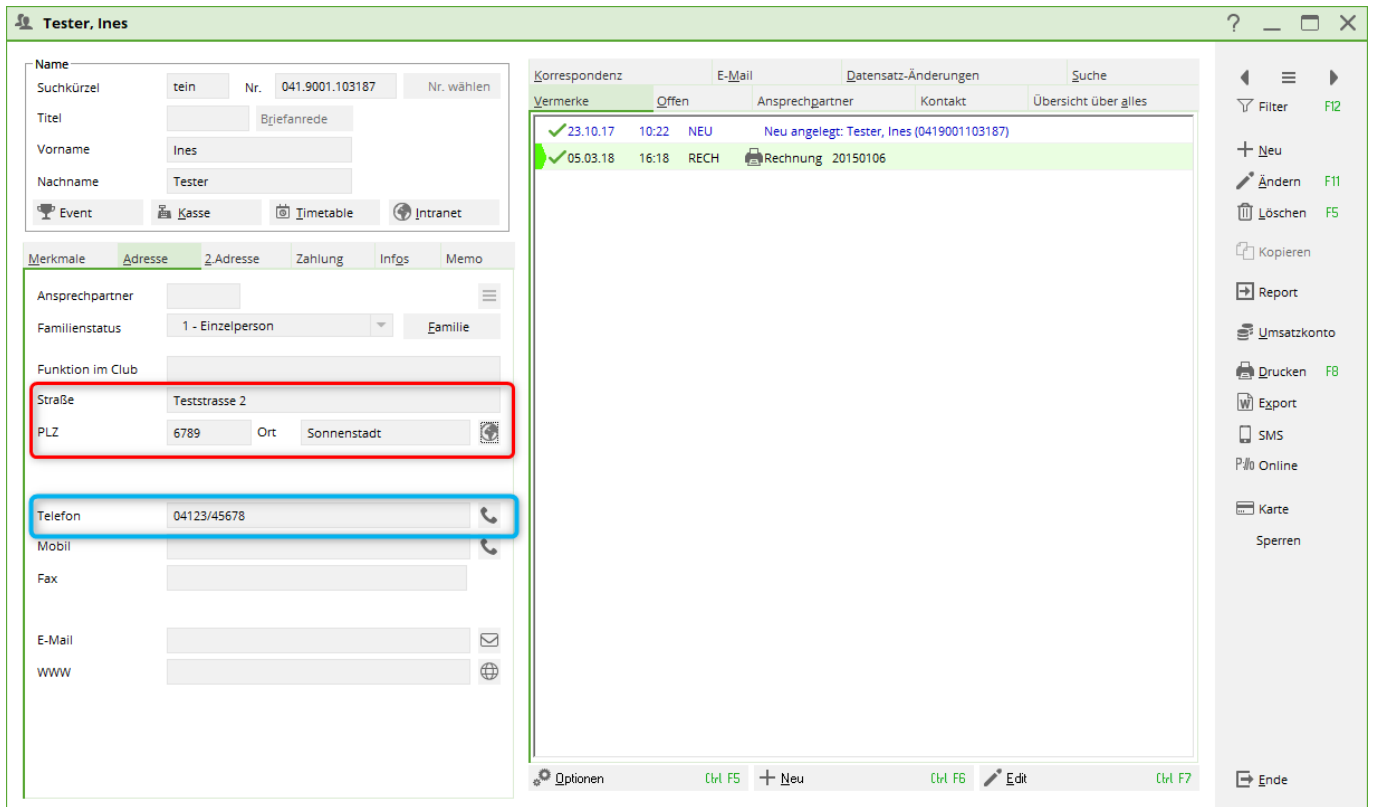

Address exchange

If the 2nd address becomes the 1st address and vice versa, proceed as follows:
Open the person for whom the addresses are to be swapped.

Hold down the Shift key and click on the blue globe to the right of the location.
This process swaps the addresses but not the telephone numbers and e-mail addresses.

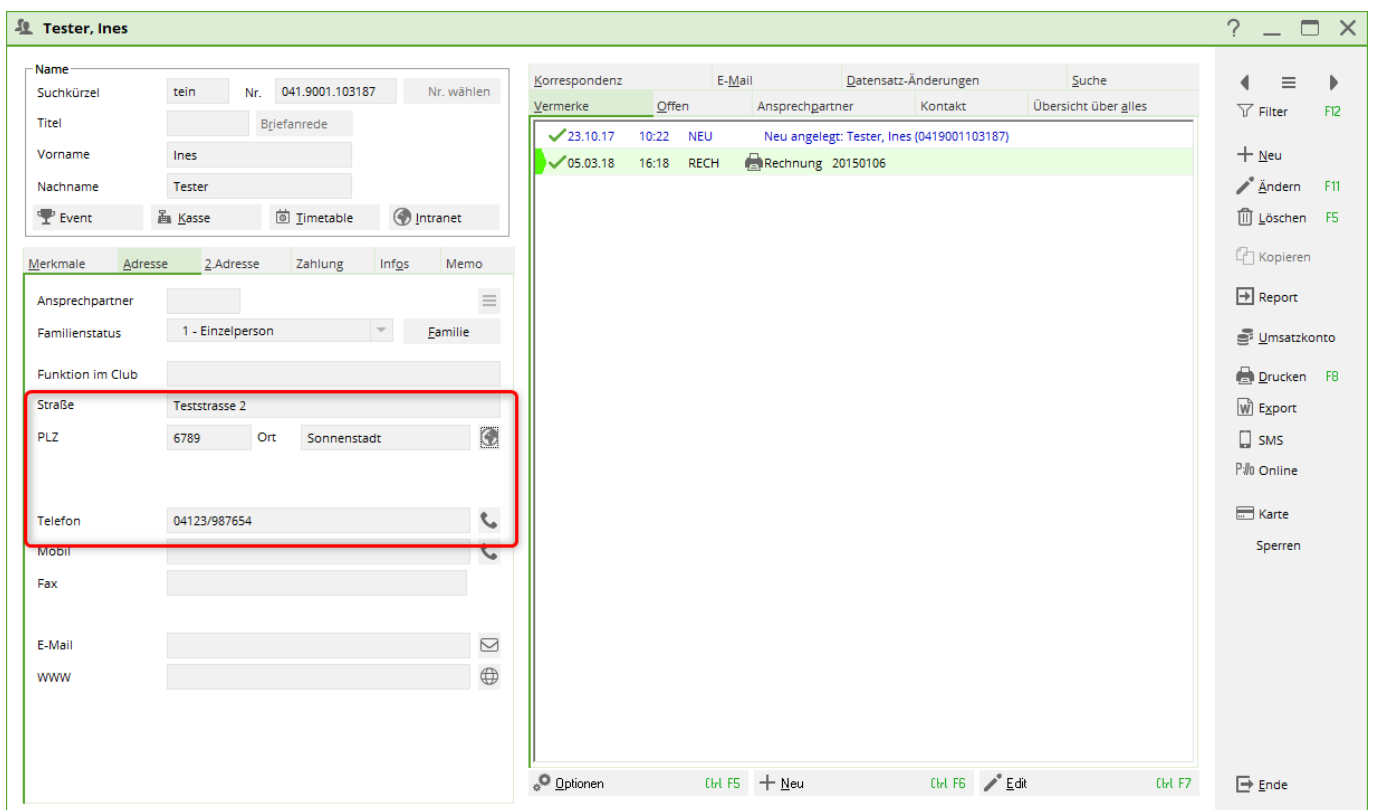

The screenshot shows a software interface for managing contact information. The window title is "Tester, Ines". The interface is divided into several sections:

- Name:** Suchkürzel (tein), Nr. (041.9001.103187), Nr. wählen, Titel (Bjefanrede), Vorname (Ines), Nachname (Tester). Buttons for Event, Kasse, Timetable, and Intranet are visible.
- Merkmale:** Tabs for Adresse, 2.Adresse, Zahlung, Infos, Memo.
- Personal Details:** Ansprechpartner, Familienstatus (1 - Einzelperson), Funktion im Club.
- Address:** Straße (Sonnenallee 1), PLZ (12345), Ort (Hollywood). A red box highlights this section, and a red arrow points to a blue globe icon next to the location field.
- Contact Information:** Telefon (04123/45678), Mobil, Fax, E-Mail, www.
- Correspondence:** A table with columns for Vermerke, Offen, Ansprechpartner, Kontakt, and Suche. It shows two entries: one from 23.10.17 (NEU) and one from 05.03.18 (RECH).
- Right Panel:** A sidebar with various actions: Filter (F12), Neu, Ändern (F11), Löschen (F5), Kopieren, Report, Umsatzkonto, Drucken (F8), Export, SMS, P/lo Online, Karte, Sperren.
- Bottom Panel:** Options, Neu (Ctrl F5), Edit (Ctrl F6), and Ende (Ctrl F7).

It does not matter whether you carry out this process in the column of the 1st address or the 2nd address. Please note that PC Caddie cannot change it correctly if a PO box or a company/department is entered in the 2nd address.

If you also hold down the Ctrl key, telephone numbers and e-mail addresses will also be swapped.

IMPORTANT: Change the tick for billing address and letter address in the 2nd address tab accordingly!

Bank/Payment

Merkmale	Adresse	2.Adresse	Zahlung	Infos	Memo

Gültig bis	<input type="text"/> / <input type="text"/>				

Click on the SEPA/Details button to enter all details.

Create a mandate ID by clicking on Create new mandate and enter a signature date:

Bankverbindung

SEPA Mandat | Bankverbindung | spezielle Bankverbindung

OK
 Abbruch

Mandat ID:

Unterschriftsdatum:

Letzte Nutzung:

FB

It is important that the signature date is filled in. This is a prerequisite for creating SEPA direct debit files. can be created.

Enter the account details under the Bank details tab.

You should leave the Account holder field unchanged (empty) if the person being processed is also the account holder. Otherwise, you can enter the actual account holder here. It is best to start the entry with the **bank code/BIC (Bank Identifier Code)**. PC CADDIE automatically jumps to this field. If you jump to the next field with Tab, the bank sort code is checked. If it is known and the bank has been found, you are taken directly to the field **Account number/IBAN (International Bank Account Number)**, otherwise the bank name is queried.

When entering the IBAN, the validity of the check digits is automatically checked so that the slightly longer account details are also valid. It is completely sufficient to enter the IBAN instead of the usual bank details. This procedure is ideal for foreign account details in particular.

Confirm the details with „OK“.

The screenshot shows a form with a dropdown menu for 'Einzug:' (Direct Debit) with options 'Einzug:' and 'Abbuchung' (Debit). A red 'X' is visible in the input field above. To the right, there are checkboxes for 'Club', 'GmbH', 'Umsatz', 'OP', 'Proshop', and 'Gastro'. At the bottom, there is a checkbox for 'als PDF an diese E-Mail-Adresse:'.

You can also choose between **direct debit authorisation** and **direct debit order** and note this directly with the respective person. The direct debit order provides a high level of security for the payee, as they know after a few days at the latest that the payment will remain with them and cannot be debited back within the 6-week period due to an objection. Of course, this choice must comply with your contracts with the bank and your customers. With the direct debit authorisation, you can choose whether a direct debit authorisation exists for all account areas or only for certain ones.

The payment method can also be varied as part of this. Differentiate between four options: „Monthly“, „Quarterly“, „Half-yearly“ and „Annual payment“. This selection can be taken into account when allocating contributions. If nothing is entered, the annual payment is automatically stored. When printing lists of persons, there is also the field <ZAHLWEISE> so that you can also print a list of the persons for whom which payment method is set.

If you use the module **Invoice dispatch by mail** module and use it, you can select the **dispatch** tick the box **as PDF to this e-mail address:** and in the line **e-mail** line, enter the e-mail address to which the invoice should then be sent by e-mail. This e-mail address can be added to the e-mail addresses in the tabs **Address** and **2. address** and is used exclusively for sending invoices by e-mail.

The first time you activate the e-mail by invoice, the general enquiry is displayed.

Or can be called up at any time under: Settings - Programme settings - General settings - Sales tab

Rechnungsversand per Mail
✕

Bevor Sie die Option verwenden können, mit der gezielt gewählt werden kann, ob und wenn ja an welche Mailadresse Rechnungen als PDF versendet werden, müssen Sie dies hier konfigurieren.

Dies ist wichtig, weil in der Folge Rechnungen nicht mehr einfach an die in den Personen standardmässig hinterlegte Mailadresse versendet werden

Rechnungsversand per Mail nur an die in der Rubrik 'Zahlung' beim Kunden hinterlegte Mailadresse, wenn dort der Versand aktiviert ist.

Um Ihnen den Start zu vereinfachen, können Sie den Mailversand und die zu verwendende Mailadresse zu Beginn automatisch setzen lassen - später machen Sie dann nur noch das Häkchen bei den Personen, für die Sie den Mailversand wünschen:

Rechnungs-Mailversand für diese Gruppe aktivieren

Personengruppe, für die der Versand per Mail jetzt aktiviert werden soll:

Alle Mitglieder ▼ ...

Rechnungs-Mailadresse so bestimmen:

Normalerweise erste Adresse, wenn gefüllt ▼

Normalerweise erste Adresse, wenn gefüllt 2/2 ✕

Wenn '!' in erster Mailadresse zweite nehmen

✓ OK

✕ Abbruch

This wizard helps you to copy the e-mail addresses correctly into the Payment tab.

The e-mail addresses are selected as follows:

1st e-mail filled - 2nd e-mail empty > 1st e-mail goes to invoice by e-mail

1st e-mail filled but with ! in front - 2nd e-mail empty → dispatch by post - invoice by e-mail remains empty

1st email empty - 2nd email filled → 2nd email goes to invoice by mail

1st e-mail empty - 2nd e-mail filled but with ! before → dispatch by post - invoice by e-mail remains empty

Exclamation mark (!) remains and continues to apply **only** for the newsletter dispatch (Supermailer)

If the member's invoices are paid by credit card, simply enter the required details under **Credit card, cardholder, card number, valid until** and **Verification Code** and Verification Code.

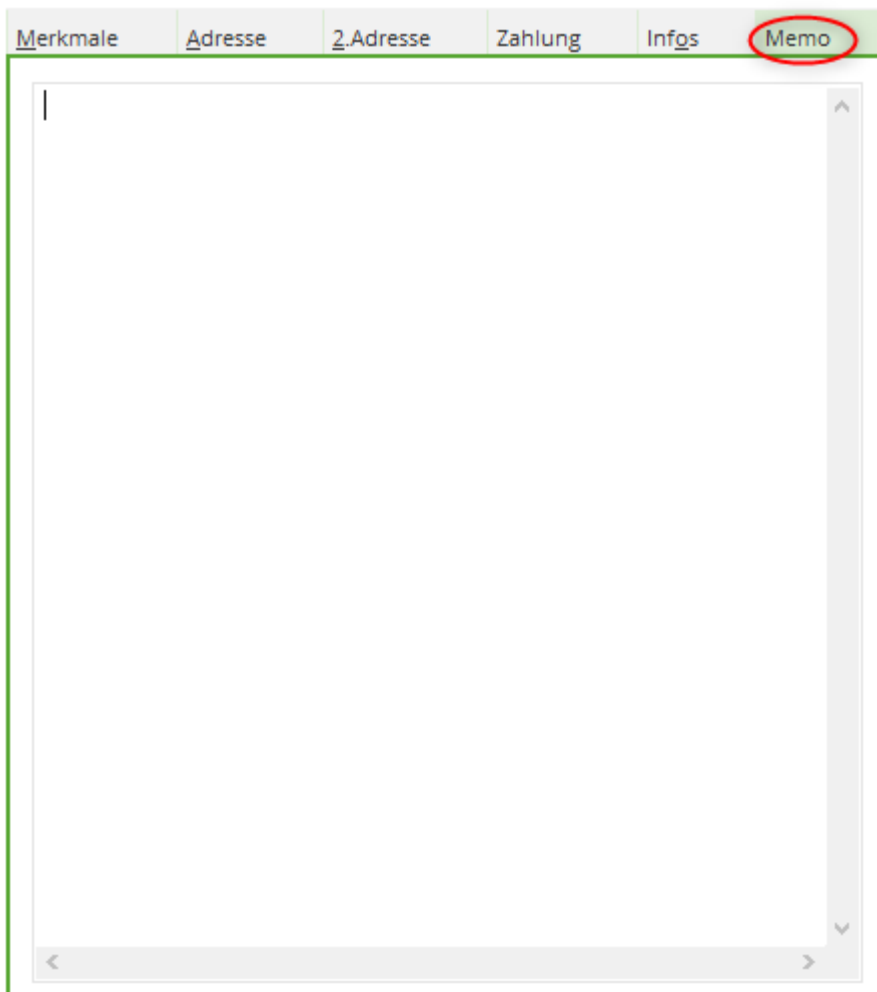

SEPA / Details

Via the button *SEPA / Details* button takes you to the SEPA direct debit mandate. In the following dialogue, you also have the option of entering special bank details for the current account area only.

Info

To the explanation of the **Additional personal fields** can be found here: [Persons additional info fields](#)

Memo

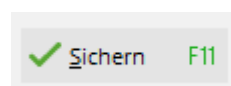

The image shows a software interface with a horizontal tabbed menu at the top. The tabs are labeled 'Merkmale', 'Adresse', '2.Adresse', 'Zahlung', 'Infos', and 'Memo'. The 'Memo' tab is highlighted with a red border. Below the menu is a large, empty text area with a vertical scrollbar on the right and horizontal scrollbars at the bottom, indicating it is a scrollable field for entering text.

Enter additional information about the person here. As soon as something has been entered in the memo, the Memo tab is coloured red. With a certain layout, the **memo** field can also be printed out.

The Memo field is the predecessor function of the [CRM\DMS](#) module in PC CADDIE.

Save

Once you have entered all the details, please click Save.

The following dialogue will appear if you have just created a member:

Enter additional family members

We will now look at how additional family members can be entered. To do this, click on the New button and enter the first name of the family member (e.g. the wife). If the surname is different from the husband's, you should also enter the surname. If it is the same as the husband's, you do not need to enter it again. You can then click on Copy (F6) or press the F6 key:

You will be asked who you want to copy the information from. The person who was last edited is selected here, in our case the husband. As this is already correct, simply confirm with OK or press the Enter key. If you want to copy from another person, enter the abbreviation or search for the appropriate person in the selection list. The information such as surname, status and address will now be copied directly from the spouse. The exact status, gender, handicap or date of birth and also the mobile phone number must of course be checked individually.

Family status

Enter an individual or the corresponding company under Contact person.

Next, the family status should be determined. This not only provides an overview, but also lets the system know whether it should address two people as Mr and Mrs or as a family (e.g. father and daughter). It can also be used in tournaments to recognise who is family. The family status is of particular importance **„Write to 4-Extra“**. A family member with this status is written to in addition to the family on circulars and address labels. However, contribution invoices are only ever issued once for the whole family. The exact opposite is the case with the status **„5-separate invoice“ status**. The members are written to together, but receive separate invoices. This is

important for couples with separate accounts. With the status „**6-All separate**“ each letter and invoice is created separately for each person.

In the event of family break-ups (e.g. due to a divorce or a grandchild changing clubs), always ensure that the financial accounts are separated first and only then the family summary is removed, otherwise the sales accounts cannot be properly adjusted.

Enter second member

To enter a second member, open the menu item **Persons/...enter new, change, delete** and then select the desired person from the list:

The screenshot shows a software window titled "Person: Member; von, Dr. Paul". The window is divided into several sections:

- Name Section:** Includes fields for "Search abbr." (mepa), "No." (099.0001.100011), "Title" (Dr.), "First name" (Paul), and "Name" (von:Member). There is a "Select No." button and a small icon of two people.
- Navigation Buttons:** A row of buttons: Competition, Cash register, Timetable, and Intranet.
- Tabbed Interface:** Tabs for Status, 1st Addr., 2nd Addr., payment, Infos, and Memo. The "Status" tab is active.
- Status Form:** Fields for "Exact HCP", "Homeclub" (497719 Golfclub Markgräflerland Kar), "Homeclub-ID" (100095), "Gender" (1 - Male), "Age group" (5 - Young senior), "Membership" (8 - Second club member), "Status" (0 -), "Unused" (0 -), "Additional info" (bridge), "D.O.B." (15.04.1965 [53]), "Entry" (10.11.2004 [13]), and "Resigned" (..). There is also a "Leave: 04.10.18" field and a "Privacy" button.
- Right Sidebar:** A vertical column of buttons: Filter (F12), New, Save (F11), Delete (F5), Copy (F6), Account, Print (F8), Export, SMS, Card, Close, Discount, and Quit.

Select the Intranet button if the home club is not your club.

PC CADDIE searches for the appropriate data for the person concerned via Swiss Golf or DGV or ÖGV.

Person suchen: 1314.100095 - Heck, Axel

Sollen die Daten übernommen werden?

Club: 491314 WINSTONGolf GmbH

Abbruch

Confirm with **OK**. PC CADDIE writes the member number directly into the person mask. **Important:** Make sure that the club responsible for the handicap management of the person in question is entered in the Home club field. In order for this person to be recognised as a club member in PC CADDIE, you must activate a suitable member feature under the member status.

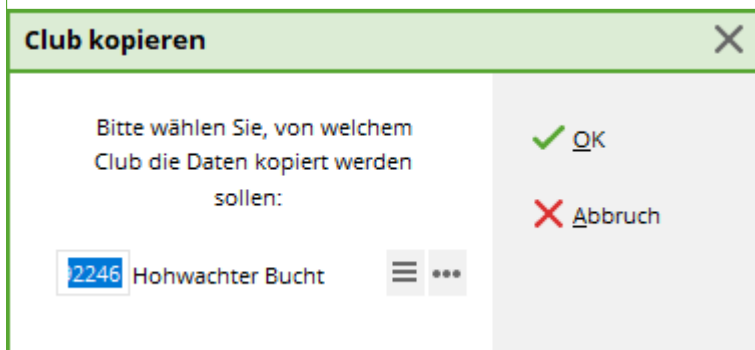

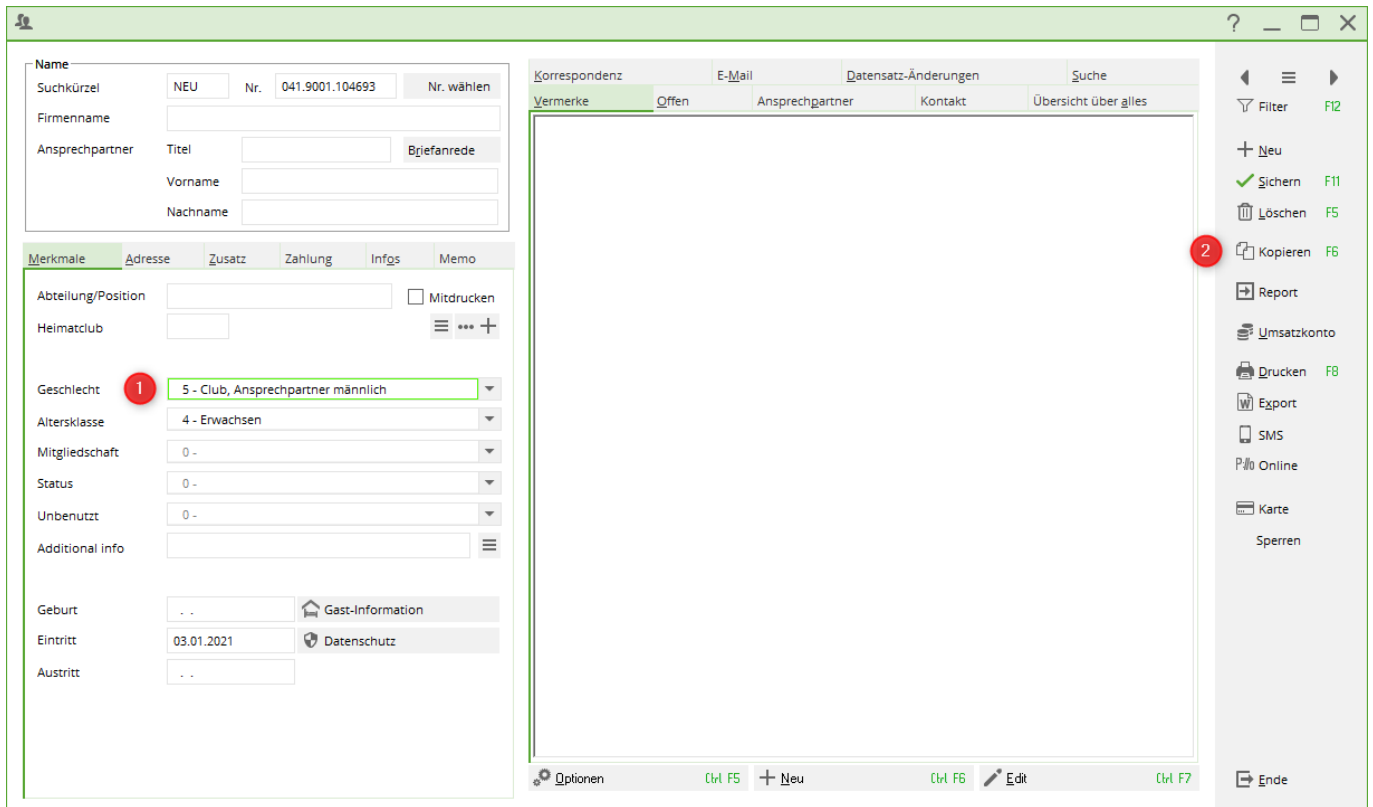

Entering companies and clubs

Click on **New** (F9) to open a new person mask. Now select under **Gender** select an option between 3 and 8. In our example, we decide in favour of „**3 - Company, male address**“. The input mask switches automatically:

Now enter the company name. It is also particularly important to use the contact person function for company memberships. For all players in a company, enter the company as the **contact person**. This will give you a quick overview of how many and which players from this company are playing. Annual subscriptions and other revenues are managed individually for each player and listed in the **invoice** to the company. You can also enter the department/position if required. All other input options are identical to those for individuals.

TIP: For example, if you enter **„Hotel:Sonnenschein“** the hotel will appear under the search abbreviation „son...“ and not under the search abbreviation „hotel“.

In another example, we decide in favour of **„5 - Club, Ansp. Männl.“**. You can now fill in the club data with the address, telephone number and e-mail address particularly quickly by clicking on the **Copy** button. Type in the desired club number. PC CADDIE then enters the club name and address data automatically. You can now enter a contact person's name.

Copy personal data from a signature

Personal data can also be easily copied from a signature (from a website or from an email) into the PC CADDIE personal mask. To do this, the imprint or signature must be selected and copied with the right mouse button:

Intranet

Person: Member, Paul

Name			
Search abbr.	mepa	No. 040.9001.100011	Select No.
Title		Addr.(Pers.)	
First name	Paul		
Name	Member		

 [Competitor](#)  [Kasse](#)  [Timetable](#)  [Intranet](#)

members

When clicking on the Intranet button, the following dialogue appears for members: The necessary information is automatically synchronised with the intranet. You have the following options:

Intranet-Funktion ✕

Was möchten Sie machen?

 Personendaten im Intranet abgleichen	1
▶ <u>P</u> erson im Serviceportal öffnen	2
▶ <u>S</u> coring-Record im Serviceportal öffnen	3
▶ <u>H</u> andicap-History im Serviceportal öffnen	4
▶ <u>A</u> usweisbestellung im Serviceportal prüfen	5
▶ <u>E</u> rgebnismitteilungen im Serviceportal prüfen	6
▶ Spieler-ID prüfen (490000865378)	7
▶ Beim <u>V</u> erband prüfen	8
✕ Abbruch	9

1. synchronise the member data after a change in the person so that the data in the service portal (intranet) is always up to date (works automatically, can also be triggered manually).
2. Here you can check whether the data stored in the service portal is correct. In the service portal, you can also set your member to be displayed anonymously on the intranet (the name no longer appears on the intranet start and results lists).
3. View the member's scoring record.
4. View the member's handicap history here (master sheet)
5. Here you can check when and whether the last handicap order was made.
6. If necessary, check your member's external results in the service portal.

7. Make sure that the correct player ID is stored (this is normally done automatically).
8. **For members, you can retrieve the HCP index from the association here.**
9. Click Cancel to close the window without taking any action.

Guests - Guest players

If you accept a new guest, since 2024 the DGV server also requires the gender to be entered in order to provide a response.

If you do not enter a gender, the DGV will send the response „ASP 8“! ASP 8 always means that no answer will be delivered from the DGV intranet for the query that was made!

As soon as you enter the gender, the enquiry will work. PC CADDIE has no influence on this. Settings with which data a response is delivered are set on the DGV server.

The screenshot shows the PC CADDIE software interface. On the left, there is a form for entering guest player information. The form includes fields for Name, Suchkürzel (NEU), Nr. (049.9001.117488), Titel, Vorname (Axel), and Nachname (Heck). Below the form are buttons for Turnier, Kasse, Timetable, and Intranet. A red arrow points to the Intranet button. On the right, there is a menu with options like Korrespondenz, E-Mail, Datensatz-Änderung, Vermerke, Offen, Ansprechpartner, and Kontak.

In the foreground, an "Intranet-Fehler" dialog box is displayed. The dialog box contains the text: "Bei der Daten-Übertragung ist dieser Fehler aufgetreten: ASP:8 = Abfrage liefert keine Daten / kein Treffer (S: 4 - V: 2)". A red box highlights this error message. The dialog box also has "OK" and "Hilfe" buttons. A red arrow points to the "Geschlecht" field in the form, which is set to "0 - (divers)".

As soon as the query returns a response (after entering the gender), you will receive the following dialogue:

Person suchen: 1314.100095 - Heck, Axel

Sollen die Daten übernommen werden?

Club: 491314 WINSTONGolf GmbH

Mitglieds-Nr: 050712

Anrede: Herr Titel:

Vorname: Axel Zusatz:

Nachname: Heck

Geschlecht: 1 Männlich

Funktion: 0 Bezeichnung:

Geburtsdatum: 04.03.1976

HCP: -3.90 Datum: 30.07.2021 2: Status:

Status: Aktiv
gültig bis:

Spieler-ID: 490000110933 Karte gültig: 1 31.12.2021

OK

Abbruch

Always confirm the transfer of the data with **OK**.

If you exit the window with Cancel because the details do not match the person you are looking for, a confirmation prompt will appear:

Prüfung nicht erfolgreich

Soll das Handicap trotz nicht erfolgreicher Intranet-Prüfung als manuell geprüft eingetragen werden?

ja, das Handicap wurde manuell geprüft

Nein, Abbruch

If you are sure that the handicap is correct, you can select the first option.

Homeclub-ID 001178 13:47 manually checked,Reg

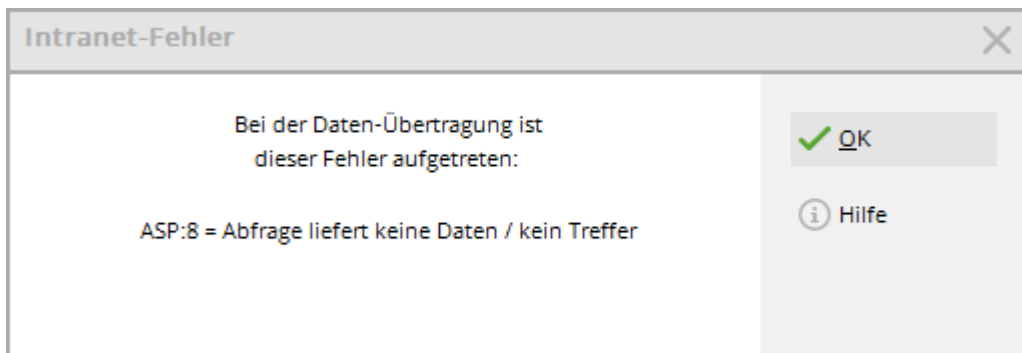

If you are not sure, please click on **No, cancel**.

Homeclub-ID

001178

13:50 not found, Regional+full

If guests cannot be found on the intranet, the following error message appears:

Guest player home club in different countries

If a guest has a home club from **Germany, Switzerland or Austria** and the club list (club information) is also loaded and up-to-date via the intranet, then players with these home clubs can also be checked.

Please also note that you can only check players from abroad if you have already entered their date of birth (the IGI - International Interface - requires this).

e.g. query from a Swiss club, player from Germany. You will only receive an answer if you already know the date of birth:

The screenshot shows a software interface for searching a person. On the left, there are input fields for 'Suchkürzel' (obm1), 'Nr.' (041.9001.10), 'Titel', 'Vorname', and 'Nachname'. Below these are buttons for 'Event', 'Kasse', and 'Iimetab'. A 'Merkmale' section contains various attributes like 'Handicap-Index', 'Heimatclub' (497737), 'Geschlecht' (Männlich), 'Altersklasse' (5 - Jungsenior), and 'Geburt' (09.11.1981). A red arrow points to the 'Geburt' field. On the right, a 'Person suchen: 0497737.000000' dialog box is open, displaying the search results for '497737 Golfclub Owingen Überlingen e.V.' with fields for 'Mitglieds-Nr.', 'Anrede', 'Vorname', 'Nachname', 'Geschlecht', 'Funktion', 'Geburtsdatum', 'HCPI', 'Datum', 'Status', and 'Verbands-ID'. A confirmation dialog asks 'Sollen die Daten übernommen werden?' with 'OK' and 'Abbruch' buttons.

Players with home clubs in **Hungary, Bulgaria, Luxembourg and Liechtenstein** can also be checked on the intranet with regard to handicap and date of birth. The procedure is the same as for all guests.

However, it is necessary to enter the correct original club number in the person's course data record. **original club number** is stored in the course record. Please refer to „Clubs and pitches“.

Link to the club numbers: [Clubs Luxembourg, Bulgaria, Hungary](#)

Match people via Golf.at

When clicking on the GOLF.AT button, the „Search person“ window automatically appears for guests (see point 2).

The following dialogue opens for your members:

Kontakt: Member, Petra

Name

Suchkürzel: mepe Nr. 043.0996.100019 Nr. wählen

Titel: Briefanrede

Vorname: Petra

Nachname: Member

Event Kasse Timetable **GOLF.AT**

GOLF.AT-Funktion X

Member, Petra

Was möchten Sie machen?

G Personendaten im GOLF.AT abgleichen 1

▶ Spielerdaten von GOLF.AT laden 2

▶ Logindaten von GOLF.AT anzeigen 3

✗ Abbruch 4

1. synchronise the member data after a change in the person so that the data on Golf.at is always up to date.
2. Here you can check whether the data stored on Golf.at is correct. For secondary members, name and Hcp changes are transferred to your PC CADDIE.
3. The login details for the myGolf area of www.golf.at are displayed here. The password must be entered by your member when logging in for the first time. This is no longer visible in PC CADDIE
4. You can exit the synchronisation without making any changes by clicking the Cancel button.

to 1. synchronise personal data in Golf.at

Intranet-Abgleich X

Die Personendaten wurden neu ins Ausgangsverzeichnis des Intranets gespeichert und werden beim nächsten Abgleich übertragen!

▶ jetzt Abgleich starten 1

✓ QK, später übertragen 2

1. The data is immediately sent to Golf.at.
2. You can synchronise the data later via the FTP butler if you are editing several people at once.

to 2. load player data from Golf.at

The screenshot shows a dialog box titled "Person suchen: 0000.000000 - Member, Petra". It contains a form with the following fields and values:

- Club: 996 Testclub PC Caddie
- Mitglieds-Nr.: 4300203725
- Anrede: (empty) Titel: Dr. MBA
- Vorname: Petra Zusatz: (empty)
- Nachname: Member
- Geschlecht: Weiblich
- Funktion: (empty) Bezeichnung: (empty)
- Geburtsdatum: 03.04.2000
- HCP: -33,0 Datum: 16.08.21 Status: (empty)
- Status: (empty)
- gültig bis: (empty)
- Spieler-ID: 4300203725 Karte gültig: (empty)

On the right side, there are two buttons: "OK" (with a green checkmark) and "Abbruch" (with a red X).

Here you can synchronise the data of persons via Golf.at. You will immediately receive the Hcp, the home club and the date of birth.

to 3. display login data from Golf.at

The screenshot shows a dialog box titled "GOLF.AT". It contains the following information and fields:

- Logindaten auf golf.at:
- Member, Dr. MBA Petra
- ÖGV-ID: 4300203725
- Kartenummer: 996100019
- Benutzername: (empty)
- Passwort: (empty)
- Buttons: "Daten per Mail versenden" (with a red circle containing '1') and "Daten von GOLF.AT abrufen" (with a red circle containing '2')
- Hinweis: Die aktuellen Logindaten können nicht mehr von GOLF.AT abgerufen werden!

On the right side, there are two buttons: "OK" (with a green checkmark) and "Abbruch" (with a red X).

The ÖGV ID, card number and user name are displayed. The password is set by the member themselves via the myGolf area at www.golf.at. If no data is visible to you, use the button „Retrieve data from Golf.at“(2). You can send the data directly to your member by e-mail (if an e-mail address is stored)(1).

to 4. cancellation

You can use this button to close the window without taking any action.

Multiclub - Two club numbers

A „multiclub installation“ is a PC CADDIE installation that manages 2 club numbers in 1 database, i.e. that both PC CADDIEs can be started on 1 computer, which is necessary due to the intranet configuration alone, but that all persons have access to both installations. However, members should always be edited in the version in which they are also members - or in which they are to be added as new members.

We would like to explain a few special features here:

Overview of persons

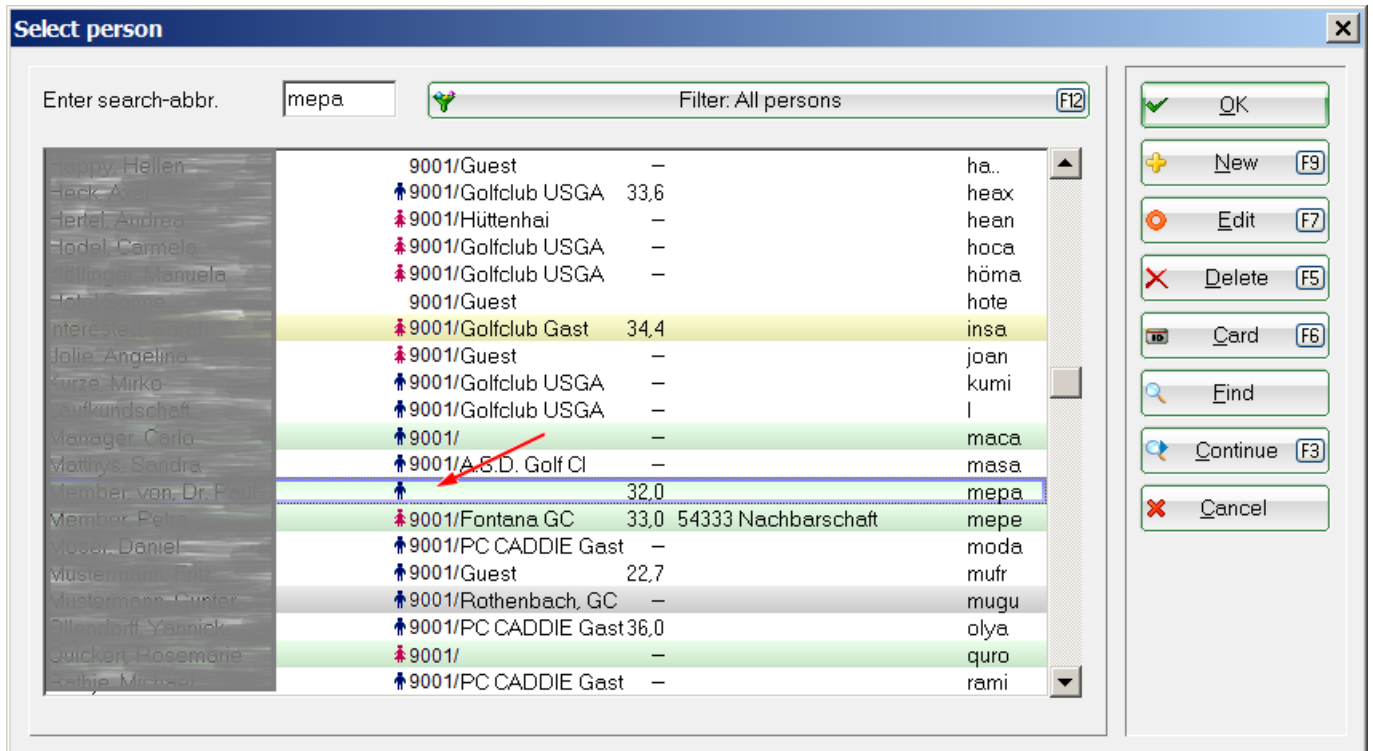

We are in PC CADDIE with the club number 9001, this is our main version. All guests from both installations as well as the members of club number 9001 are managed in the system with the number 9001.

Only 1 person is displayed here with the club number 9059, this is an indication for you that this is a member of club number 9059, our 2nd PC CADDIE installation.

The screenshot shows a 'Select person' window with a search bar containing 'mepa' and a filter set to 'All persons'. The list of persons is as follows:

Name	Club	Value	Other	Initials
Happy, Hellen	Guest	—		ha..
Hack, A...	⬆ Golfclub USGA	33,6		heax
Herfel, Andrea	⬆ Hüttenhai	—		hean
Hedel, Carmela	⬆ Golfclub USGA	—		hoca
Höllinger, Manuela	⬆ Golfclub USGA	—		höma
Hofel, ...	Guest	—		hote
Interes...	⬆ Golfclub Gast	34,4		insa
Jolie, Angelina	⬆ Guest	—		joan
Kurze, Mirko	⬆ Golfclub USGA	—		kumi
Laufkundschaft	⬆ Golfclub USGA	—		l
Manager, Carlo	⬆	—		maca
Mattys, Sandra	⬆ A.S.D. Golf Cl	—		masa
Member von, Dr. F...	⬆ 9059/	32,0		mepa
Member, Peter	⬆ Fontana GC	33,0	54333 Nachbarschaft	mepe
Moser, Daniel	⬆ PC CADDIE Gast	—		moda
Mustermann, P...	⬆ Guest	22,7		mufu
Mustermann, Dieter	⬆ Rothenbach, GC	—		mugu
Ollendoff, Yannick	⬆ PC CADDIE Gast	36,0		olya
Quicker, Rosemarie	⬆	—		quro
Sethje, Michael	⬆ PC CADDIE Gast	—		rami

The following image shows you the view in PC CADDIE with the club number 9059, where all persons except our member in version 9059 are labelled with 9001 as the number.

Club change within Multiclub

Our sample CLUBS have the club numbers 9001 and 9056

- Please note: If you want to determine membership figures for the past, you should only enter a leaving date and create a completely new member in the 2nd club. In this case, the master data sheet must also be loaded from the intranet, as if the two clubs were, for example, 100 km apart.
- If you change the existing member, as described below, you should definitely save the member statistics continuously, e.g. as a PDF. This also has the advantage that you can count and save the current member characteristics.

Leaving Club 9001

If you want to save the current membership statistics as a PDF and do not want to have duplicate personal data records:

Work in the version in which the person is currently a member.

If a member leaves Club 9001, process the departure in Club 9001.

Remove the **membership status** for the member. This is different from „normal resignation“ where you only enter the resignation date.

Person: Member; von, Dr. Paul X

 Additional info
 Leave:
 D.O.B.
 Entry
 Resigned

Start intranet synchronisation

After entering your withdrawal, please first start the [INTRANETABGLEICH](#) to send the withdrawal to the association!

If the [intranet communication server](#) is active, this will be done automatically!

Entry to Club 9059

To join Club 9059 (after leaving Club 9001), switch to the PC CADDIE installation 9059 and open the person there. To join this club, give the member the new appropriate membership status and remove the leaving date again.

PC CADDIE will then automatically change the club number in the person. This is essential so

that it is recognised in connection with the membership status that the person is a member of Club 9059.

The screenshot shows a software interface for managing golf members. The main window is titled 'Person: Member; von, Dr. Paul'. It contains various input fields for personal and membership data. A 'New member' dialog box is open, asking for confirmation to adjust data for a new member. The dialog box contains the following fields and options:

- Member name: Member, Paul (mepa)
- Message: is a new member. Do you want to adjust the following data?
- Members number: 25296 (EMPTY=Keep old no) - marked with a red circle 2
- Entry date: 10.10.2018 (EMPTY=Keep old date) - marked with a red circle 3
- Entry fee: (EMPTY)
- Booking text: (EMPTY)
- Special amount: (EMPTY=Standard)
- Options:
 - Sort into account (F6)
 - Start new Handicap-history
 - Note for next order of membership cards (F7)
 - Create CRM entries (F8)
 - Automatically get player ID (F9)
- Buttons: OK (marked with a red circle 4), Cancel, Quit

1. First enter the membership characteristic
2. when you save, the window opens with the suggestion of a new membership number for CLUB 9059!
3. If you want to keep the master data sheet that you had in CLUB 9001, it is important that you enter the old entry date, in our example 2.6.14
4. Then be sure to confirm with „OK“
5. only then will the club number be changed, as you will see shortly.

First you will see the note with the master data sheet. If you have left the entry date from CLUB 9001, the master data sheet will be retained from the old entry date.

Data record changes by members

When a customer changes their data in the online login under „My profile“,

he also has the option of sending these to the clubs. In addition to the home club (in first place), the system also suggests all the clubs in which the player last made a booking. By clicking on the options listed above or the individual clubs, the customer decides for himself to whom he wishes to transfer his changes.

ÄNDERUNGEN WEITERLEITEN

Folgende Clubs / Anlagen sollen über die Änderungen informiert werden:

D-23847 Pöhlitz
Tel: +49 2642 9854 120
Fax: +49 2642 9854 169

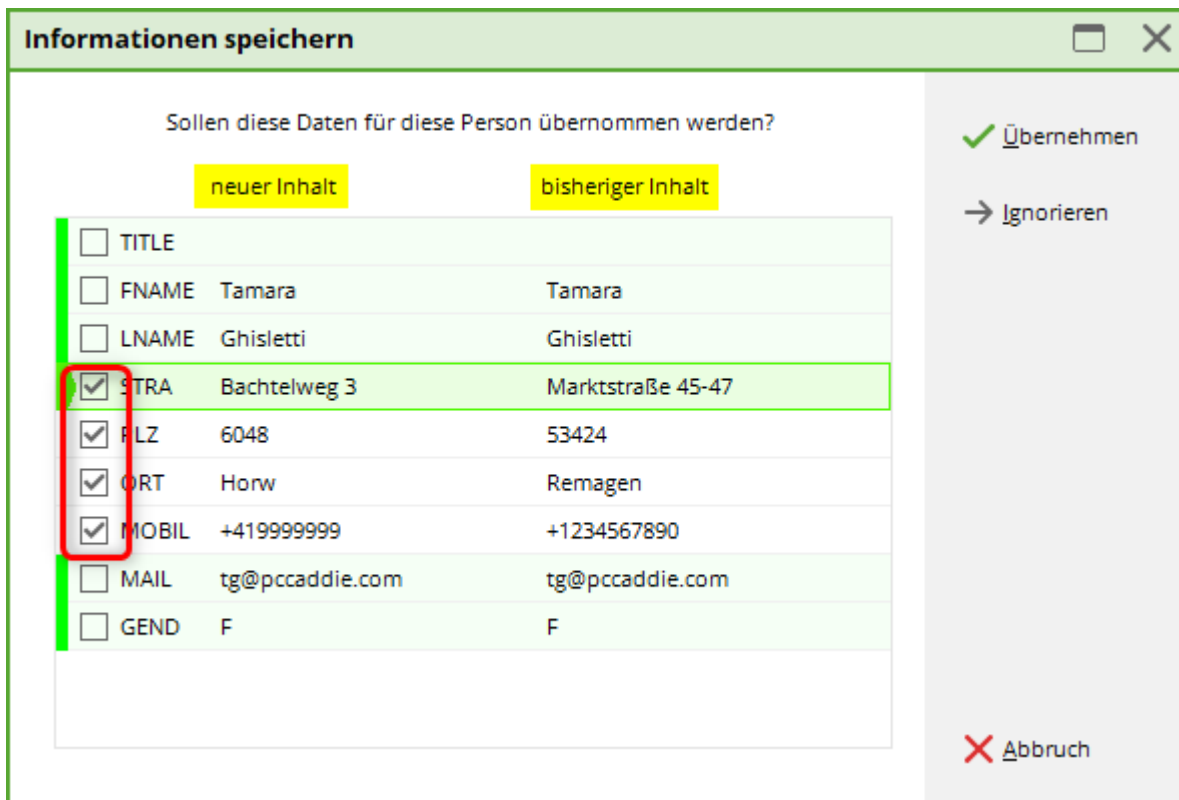

AG Lübeck, HRB 2149
GF: Dipl.-Kfm. (FH) Axel Heck
E-Mail: support@pccaddie-online.de

and an entry in the person's CRM:

Termine (1)									
Aktuell offen	Rechnung	Ideen/Projekte	Zukünftig offen	Offen und in Arbeit	Dringend	Termine	Zuletzt bearbeitet	Alle Projekte	Offene Projekte
	12.10.22	14:33	ght1	PCHG	Tamara Ghisletti hat die eigenen Daten geändert: / TITLE: / FNAME:Tamara / LNAME				

Click on the entry to open the following window. The items with a change are automatically ticked.

The employee in the club now decides which changes are to be applied (tick is set) and which options are not to be applied (remove tick) and confirms the selection with *Apply*. If no changes are to be made in the person mask, the window can be closed with *Ignore* to close the window.

After confirming both options (i.e. either accept or ignore), the entry is considered edited, is ticked off in green and remains saved in the person mask.
