As usual, you enter an **Abbreviation** for your class. In the following example we will create the junior holdiay training class. Our abbreviation is "JH1" and the name is "Junior Holiday Class".

Date	The class will take place from 21.10.2010 to 30.11.10
Time	from 2:00 pm – 3:00 pm
No. of dates	The class will take place five times
Total length	5 hours in total
Length per lesson	1 hour each
Days	Every Friday
Area	By Peter (golf teacher)

The class will take place from 21.10.2010 to 30.11.10 (**Date**), always between 2pm and 3 pm. In total, the class will take place five times (**No. of dates**), with a total duration of 5 hours (**Total length**); each class will be 1 hour long (**Length per lesson**) and will be held on Friday (**Every Friday**). The instructor is Peter (**Area**). Has all required information been entered, confirm with **Enter** or **OK**.

The planning of the classes serves only as an information as they must be booked like a regular reservation later on. The class can only be booked within the time frame (21.10.-30.10) you have created. Should the class take place another time again, set up a new class with a new abbreviation .

## Participants

Via *Class participants* (F6) you have the possibility to add all participants in advance.
