Pin positions

You can use the pin positions function to print complete pin position maps. You can access this under *Competitions/Print.../Pin positions* or by clicking in the dialogue for scorecard printing on *Pin positions* in the scorecard printing dialogue and first selecting the tournament. Select the relevant round and then enter the data:

If you select the **English labelling** please tick the box.

If you want to continue the process with **Print** (F8), four pin position cards are printed on an A4 sheet of paper. The sheet then only needs to be cut.

TIP Please also note the button **Reset** button (1), which you can use to clear the window so that you can enter new data. You can also **Save** and **Load** (2) can be very practical and save a lot of work. Please leave the file path (PC CADDIE\Texte\) and the file extension as suggested by PC CADDIE.

This function is also used to enter the pin positions that are printed on the scorecards. If you do not want to print pin position cards, you can click on **End** all entries are saved and are ready for scorecard printing.

First go to **Competitions/Print.../Scorecards** and select the corresponding tournament. You can also change the pin position here using the **Pin position** button to enter the positions and/or check them again.
