# **Start list**

You can print out start lists with various criteria. Go to the print function:

- directly from the competition information, on the right the button **Print** button on the right and then Start list

- or via the main menu *Competitions/Print/...Start list*
- or click with the <u>right</u> mouse button on the symbol shown below:

This opens this menu window:

Start list: PC CADDIE Cup - 17.07.16	×

from hole 1 0:00 o'clock	<u> </u>
to h <u>o</u> le 19: 99:591 o'clock	Quit

You can directly print a finished start list with the selected basic settings. There are also various options for adding other desired information to this list.

For example, click on the button *Edit text*button, this window opens:

The *header text* corresponds to the standard text for the entry list (*Competitions/Print.../Entry list*). You can easily copy the text from the announcement or the entry list and add a customised header text.

- 1. *Load* an already stored text here via *tender* or *entry list.* If necessary, the text can be customised.
- 2. You can save this text as a text file **as a text file.** Please use the file path suggested by PC CADDIE.

Continue to determine the *sequence* and which information (*main list, buffer, waiting list*) to be printed.

## **Printing additional information**

Click to activate the option *Info*option, you have the option of selecting the following information:

### **NETTO results**

The net or gross preliminary round results appear in the last column of the list, sorted by start time. The round results and the total are listed in order and separated by a slash. Of course, the results are only shown from the second round of a tournament over <u>several rounds</u> are displayed. In a tournament with one round, this column remains empty:

### all partners

This option is particularly useful for alphabetical sorting - all partners are listed in one line alongside the start time. This allows you to enter all the necessary information at a glance, for example if someone calls to enquire about their start time.

### Start time follow-up round

With this option, two start times are printed in the list, namely that of the current round and that of the next round. This option only makes sense if the flight division remains identical in the first and second round and only the times are changed (change 1st and 10th tee, early start/late start).

### **Individual information - Layout**

To the right of this selection appears the button *Layout.* You can use this to define the layout of an individual start list yourself, as with List of persons to define the layout of an individual start list yourself.

Read on carefully. Various examples are explained below, from tee colour to payment info.

Please note that PC CADDIE may vary depending on whether you select **Sequence** "Start order", PC CADDIE uses two different list formats: one for the list in chronological order and one for the other orders. Before printing, check whether the correct layout has been selected.

### **Customised: Start list with TEAMNAME**

To form teams, you need the "Team ranking" module! If you have a team ranking and want to print team names on the start list, use the following FIELDS:

### **Customised: Start list with payment information**

Perhaps you would like to use the entry fee tab to indicate who has already paid the tournament fees.

### Customised: Start list with printout of the registration time

If you require a list in which the registration information is noted, you can insert the following fields:

<TIDATE> for the registration date <TITIME> for the enrolment time <TIWAY> for the login method (local, intranet, app, etc.)

You can either use all fields or just some of them - depending on what you need.

### **Entry fee**

The entry fee is printed on the list for checking purposes. You set the entry fee amounts by clicking on the right on *entry fee* on the right. Please also refer to the section Entry fee.

### **Telephone number**

This list is used to print the telephone numbers of the participants as well as their names.

#### **Telephone information system**

This option is relevant for the PC CADDIE add-on module Telephone information system module.

#### **Tee colour**

This option allows you to print the colour of the tee.

After activating **Time range** you can select the time range in which the list is to be printed. This is done by specifying which **hole** and the time up to which **hole** and time the list should be printed. This gives you the option of printing separate lists for the 1st and 10th tee or for the morning and afternoon.

### Start lists as HTML file

You call this function via the button **Internet** button. It is responsible for sending the file to the DGV intranet, PC CADDIE://online Tournament or Swissgolfnetwork. In addition, the file can be transferred to any server via FTP, provided that suitable data is stored.
