

Transact EC-Terminal (epay)

- At Cardware, not only the magnetic stripe, but also the chip in the card is read for security reasons, starting with 2010 .
- Only pinpads that can do this can be used for Cardware.
- Version 4.38 is required.
- Uninstall the older version before installing the new one.
- The latest version is available on Transact Page, but is also available for download in PC CADDIE.
