

Sign up players for multiple competitions

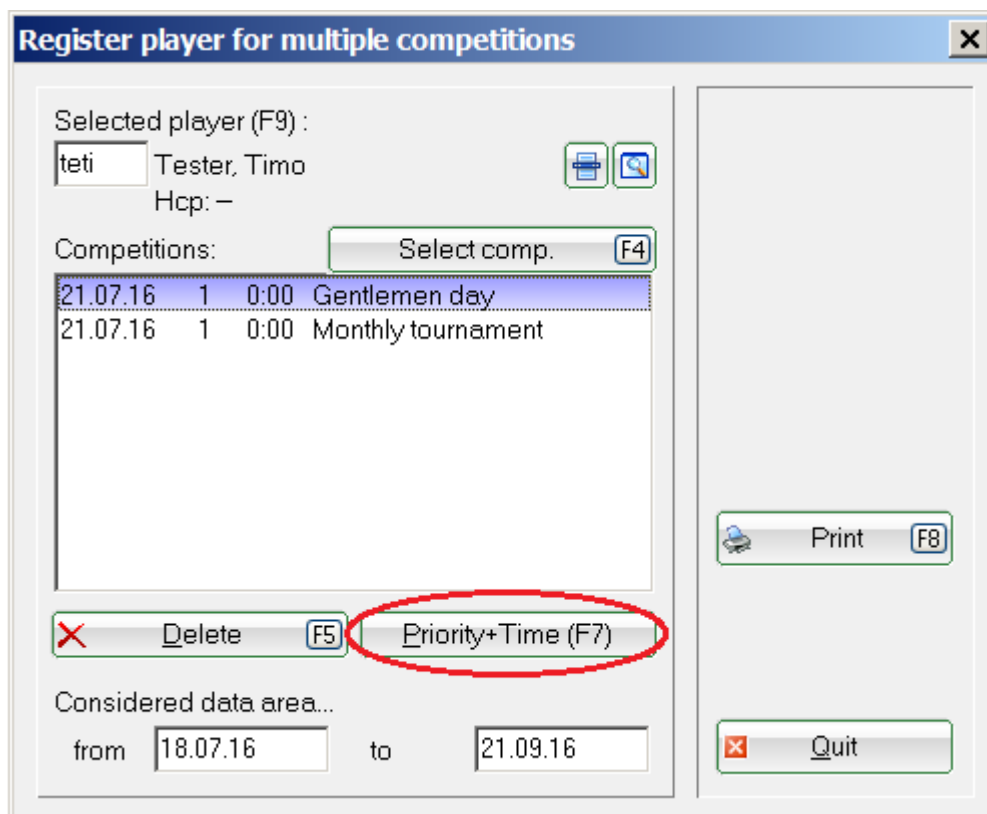

You have the possibility to register a player for multiple tournaments via **Competitions/Multiple Tournaments, Golf Weeks/Register Player for multiple Tournaments**. You can also do this directly from the person mask by clicking on the **Competition** button. In both cases, it is necessary that the number of players and the entry limits are previously set for the competition (via the **Internet** button from the competition mask).

The screenshot shows a software dialog box titled "Register player for multiple competitions". It features a "Selected player (F9)" field with the text "teti" and "Tester, Timo" below it. To the right of this field are two small icons. Below the player information is a "Competitions:" label followed by a "Select comp. (F4)" button, which is circled in red. Underneath this is a large empty rectangular area. At the bottom left, there are two buttons: "Delete (F5)" and "Priority+Time (F7)". Below these is a "Considered data area..." section with "from" and "to" labels and input fields containing "18.07.16" and "21.09.16" respectively. On the right side of the dialog, there are two buttons: "Print (F8)" and "Quit".

Enter the player in the **Selected player** (F9) field. Then determine the data area to be considered. Use the button **Selected comp.** (F4) to activate those tournaments where the player should participate:

Confirm your inputs with **Ready**. If the player also has a preferred starting time frame, you should mark the desired tournament, click on **Priority+Time** (F7) and enter, for example, **E** for early:

Edit registered player [X]

Event: Gentlemen day
Player: Tester, Timo

Priority: **E**

Start: Hole: (WL = Waiting List)
Time:

[F7]

[O]
 [C]

Enter all the required data and close the dialog with **OK**.
