Interclub Championships

More information on Team scores here.

The descriptions change yearly. Make sure that the following example meets your requirements. There are several possibilities:

- Tournaments over 2 rounds can be managed in one tournament if the team scores are entered in each round, 1 player per round, for example
- A tournament must be created in a 2-round tournament if, for example, 1 player is needed for all of the rounds (whether a foursome result or an individual result is deleted).
- A tournament can be carried out in 1 overall tournament if the team ranking cannot be set equally in every round, for example, 2 foursome results for round 1 and 5 individual results for round 5. Set the team rating for the round with the most results to be added, for example, 5 individual results have to be scored (6 players). Copy the team rating setting in the other round. Or use the wizard and change the setting under "Special rating". *VERY USEFUL HINT! Read Foursome and single Different number of results per round*
- A tournament must be managed in 2 individual tournaments if the team scores cannot be adjusted in each round, for example, all scores in the 1st round, and 1 player in the 2nd round. In this case, use the Multi-team scores to print your results list.

Processing example

Processing an inter-club championship is easy and professional in PC CADDIE. In the following example, the men's, seniors' and women's inter-clubs are played in teams (clubs) of 6 over 36 holes. There are only 4 players per club for the senior women. In this case, the match type is: Foursome Stroke play on the first day, Single Stroke play on the second day. There is a mulligan for each team in round, so 7 results are taken in total (there are no mulligans for the senior women in the 1st round, but one mulligan in the 2nd round = 5 results in total).

Because of the desired team scores with 1 player per round, this tournament can be processed in a 2-round tournament.

Basic settings

As usual, create a new tournament over 36 holes in PC CADDIE:

Second round

To process the 2nd round, load all of the players from the 1st round into the 2nd round. To do that, click on the **Players** button and select the 2nd round:

The starting list is still empty for the moment. Go to the menu under **Process/Load the starting list from another tournament/round.** All the players from the first round are loaded into the second round with **Load with flight structure**:

Load players	×
Do you want to load the players with starting times (flight structure) or previous rounds results?	
To create start list in result order you must load players with results and use the cut function.	
Load with flight structure	
Load with results -> Cut	
X <u>C</u> ancel	

Please make the corresponding starting list for the second round according to the rules.

The next step is making the teams for the second round in the same way they were made for the first round.

Finally, you can do a little check of the settings, as well as print the results list: click on the **Special scoring** button:

Team-Auswertung: ASG Int	erclub Cham	npionsh.	- 27.05.16	×
Order Ladies/Gentlemen: Handicap total from:	Gross comp Ladies and	etiton Gentleme to:	en 💌	2. Round 💌
